Buffalo, NY 14203

Re: Certification of E-rate Technology Plan Review/Approval
Plan Approval Expires June 30, 2013

Dear Ms. Batt:

The technology plan for the Schools and Libraries Universal Service Support Mechanism (commonly known as the "E-rate") program submitted by the Buffalo & Erie County Public Library appears to include all the basic planning components required by the Federal Communications Commission (FCC) and has been **approved** by the State Education Department, New York State Library, Division of Library Development, Albany, New York. This certification applies only to the approval of this technology planning document for purposes of your E-rate application. Please retain a copy of this approval letter for your records and possible future use.

Although the basic structure of your technology plan has been approved, you are reminded that E-rate rules require a level of consistency between technology plans and E-rate funding requests that was not subject to review under our approval process.

If you have any questions about this approval, please contact Maribeth Krupczak in the Division of Library Development at 518-486-5250 or by email at mkrupcza@mail.nysed.gov.

Best wishes for successful approval of your application for E-rate discounts.

Sincerely,

Bernard A. Margolis
State Librarian and
Assistant Commissioner for Libraries

BRIDGET QUINN-CAREY
DIRECTOR

March 19, 2010

Maribeth Krupczak
Library Development Specialist
Division of Library Development
New York State Library
Cultural Education Center 10-B-41
Albany, New York 12230

Dear Ms. Krupczak:

The purpose of this letter is to provide you with a copy of the Buffalo and Erie County Public Library **Technology Plan 2010-2013**, as required by the Schools and Libraries Division (SLD) for a new E-Rate Technology Plan to cover July 1, 2010 – June 30, 2013. This Plan is comprehensive for the System's Central Library, city branches and all member/contract libraries. An electronic copy (pdf version) has been sent to you via e-mail.

Based upon SLD requirements, this **Technology Plan** serves as a planning and investment guide, both for E-Rate funds and for other technology resources. The **Plan** includes the five required elements: goals; professional development strategy; telecommunications assessment; budget projections; and evaluation components. It provides a framework and a migration path to insure state-of-the-art technology services supporting public demand and staff needs. It also ensures an ongoing evaluation process and responsiveness to new and/or emerging opportunities.

Please review the new Buffalo and Erie County Public Library **Technology Plan 2010-2013** and provide us with a letter of approval, if it meets your requirements.

If you have questions or require any clarification, please do not hesitate to contact me. Thank you.

Sincerely,

Carol Ann Batt, Assistant Deputy Director, IT

MEMORANDUM

TO: Bridget Quinn-Carey, Director

FROM: Carol Ann Batt, Assistant Deputy Director, Information Technology

SUBJECT: 2010-2013 Technology Plan

DATE: March 8, 2010

The purpose of this memo is to provide you a copy of the Buffalo and Erie County Public Library **Technology Plan 2010-2013**.

The **Technology Plan 2010-2013** provides a framework and a migration path to insure state-of-the-art technology services supporting public demand and staff needs. The Plan ensures an ongoing evaluation process and responsiveness to new and emerging opportunities.

The document includes all current and anticipated technology projects, as well as all projects for which the Buffalo & Erie County Public Library plans to submit e-Rate applications for the period July 1, 2010 through June 30, 2013.

The **Technology Plan** must be submitted to New York State's Division of Library Development for review by March 30, 2010.

Thank you very much for all of your help in the development of **Technology Plan 2010-2013**. The contributions made by the public, staff focus groups, Information Technology & Technology Support staff, and the administrative team members were invaluable and much appreciated.

Cc: Kenneth Stone, Chief Financial Officer (No attachment)

Mary Jean Jakubowski, Chief Operating Officer (No attachment)

BUFFALO AND ERIE COUNTY PUBLIC LIBRARY

TECHNOLOGY PLAN

2010 - 2013

I. INTRODUCTION

The Buffalo and Erie County Public Library Technology Plan 2010-2013 documents the strategies necessary for deploying relevant technology, consistent with the goals of the *Five-Year Plan of Service – Back to Basics...and Beyond* that will provide superior library service to the residents of Buffalo and Erie County. The System consists of the Central Library located in downtown Buffalo, eight (8) branches in the City of Buffalo and the following twenty-two (22) contracting member libraries operating twenty-eight (28) locations outside the City of Buffalo:

- ❑ Amherst Public Library (4 locations)
- ❑ Angola Public Library
- ❑ Aurora Town Public Library
- ❑ Boston Free Library
- ❑ Cheektowaga Public Library (2 locations)
- ❑ City of Tonawanda Public Library
- ❑ Clarence Public Library
- ❑ Eden Library
- ❑ Elma Public Library
- ❑ Ewell Free Library
- ❑ Grand Island Memorial Library
- ❑ Hamburg Public Library (2 locations)
- ❑ Hulbert Library of the Town of Concord
- ❑ Lackawanna Public Library
- ❑ Lancaster Public Library
- ❑ Marilla Free Library

- ❑ Newstead Public Library
- ❑ Orchard Park Public Library
- ❑ Town of Collins Public Library
- ❑ Town of North Collins Public Library
- ❑ Town of Tonawanda Public Library (2 locations)
- ❑ West Seneca Public Library

The technology needs and requirements for all libraries are met by the Buffalo and Erie County Public Library System and are included in this document.

In 1997, the Buffalo and Erie County Public Library (B&ECPL) completed a formal technology plan that set forth an implementation strategy the Library could follow to ensure that access to information was equal to all. To accomplish the goals of the plan, it was necessary to build the required infrastructure at the Central Library and the 51 city branch and contracting libraries. On December 21, 1998, a major milestone was met with the introduction of the B&ECPL's website which incorporated the new web-based on-line catalog. The objectives of the plan were exceeded in November 1999 when the project to install at least one workstation with Internet access in each facility was completed, and over 400 personal computers were made available to library users. While great strides were made in narrowing the digital divide in the community, a great deal remained to be addressed. These topics were addressed in the Technology Plan (2001 - 2004).

The Technology Plan (2001 - 2004) was closely aligned with the goals and objectives of the Library's strategic plan, *Expanding Horizons: Directions for Superior Public Library Service in Erie County* that was adopted by the B&ECPL Board of Trustees on December 14, 2000. The plan advocated expanding the Library's offerings of printed materials, media, **technology resources** and entertaining, informative programs."

The next Technology Plan (2004 - 2007) *Strengthening a Community Through Exceptional Service - By Sharing a World of Information* focused on increasing the offerings to the residents of Buffalo and Erie County. In 2004, the Library's strategic plan was being updated. *Breaking New Ground: A Blueprint for Strengthening a Community through Exceptional Library Service* was dedicated to providing expanded and new services and technology that directly addressed the traditional and evolving needs of the community.

However, significant budget reductions in 2005 and 2006 hampered the ability of the Library to achieve all the objectives included in these plans. Instead, 15 libraries were closed, mobile library service was eliminated, and many highly regarded and much needed programs were severely limited or discontinued. While the B&ECPL administration recognized the importance of the network, library automation system, and availability of public access computing and worked very hard to maintain these valuable services in all facilities, progress on new and innovative projects was hampered. Many of these targets were carried over to the next Technology Plan.

In 2006, the Library's director and entire administrative team worked with the staff and Board of Trustees to update the strategic plan and corresponding *Five-Year Plan of Service*. The result, *Back to Basics...and Beyond* attempted to reinvent the B&ECPL in the wake of funding cuts, library closings, layoffs, service reductions and ongoing fiscal uncertainty. The plan emphasizes the traditional role of the library as a community space and the investment of our limited resources in those services that best meet user needs.

As a result, the Technology Plan (2007-2010) was developed to support the goals and objectives of the Strategic plan and corresponding *Five-Year Plan of Service*. These documents stressed that technology services are an integral part 21st Century library services. Both underscored the availability of public access computers as the greatest equalizer in the history of public libraries, bridging the "digital divide" by assisting those socioeconomic groups with the greatest need and the fewest personal resources. The plans depended upon a state-of-the-art library automation system and other productivity tools for library staff to allow this significantly reduced workforce to continue delivering exemplary service, even in trying times.

Financial challenges continued. The Library system sustained successive reductions in state recurring operating aid and grants in 2008 and 2009 resulting in 2009 receipts that were \$470,000 and 15% below the funding provided in 2007. Locally, the deteriorating economy resulted in a much appreciated \$1.6 million funding restoration provided by Erie County in 2008 being discontinued in 2009 - a 7% reduction. The adopted budget continued to provide the open hours and basic services our users need now more than ever, but not every project could be sustained at appropriate levels. In spite of the fiscal instability, much was accomplished under the Technology Plan (2007-2010).

Public and staff input weighed heavily in the preparation of the Technology Plan 2010–2013. An electronic Public Technology Survey was distributed in September 2009 and almost 2400 hundred responses were received. Two formal Staff Focus Groups were also conducted. After thorough analysis of the recommendations and review of the *Five Year Plan of Service Back to Basics...and Beyond*, a strategy emerged that would map the B&ECPL's technology future for the next three years. The Library's director and entire administrative team reviewed and approved the plan.

The B&ECPL's administrative team recognizes that technology planning is complicated by budget uncertainty, on-going library initiatives and rapid developments in technology. It is an undeniable fact that the plan will change. The *Five Year Plan of Service (2007-2011)* will terminate in 2011. Adjustments will be required to address new strategic plan initiatives. The director and administrative team will monitor the Technology Plan 2010-2013 throughout its duration, ensuring responsiveness to new and emerging opportunities.

The Technology Plan 2010-2013 provides a framework and a migration path to insure state-of-the-art technology services supporting public demand and staff needs. The elements of this plan are: 1) Mission Statement, 2) Current Assessment, 3) Goals and Strategies for Using Telecommunications and Information Technology, 4) Network Strategy & Security, 5) Assessment of Telecommunication Services, Hardware, Software and Other Services Needed, 6) Office of Network Support Staffing, 7) Professional Development Strategy, 8) Budget Resources, 9) Ongoing Evaluation Process and 10) Acknowledgements.

II. MISSION STATEMENT

At the core of the B&ECPL's strategic planning process is a commitment to quality library service that acknowledges and embraces the wants, needs and unique qualities of the residents of Erie County. To this end, the Board of Trustees adopted the following Mission Statement, as part of the Library's Strategic plan, in July 2004.

"Our mission is to connect our diverse community with library resources that enrich, enlighten and entertain."

To achieve this mission, the B&ECPL must incorporate technologies that meet the basic needs of the residents. This document outlines strategies to implement these technologies. Because it is a working document, revisions will be made as needed to ensure that the Library is poised to embrace any rapidly evolving technological advances and System priorities.

III. CURRENT ASSESSMENT

The goals of the Technology Plan (2007-2010) were tied directly to one or more of the service targets defined in the strategic and five-year planning documents of the B&ECPL. The strategic plan provided the blueprint to maintain the existing structure for library service while extending the foundation to go beyond the basics to meet the extraordinary literacy and technology needs of the residents of Buffalo and Erie County. To accomplish these goals, several vital service and product areas were targeted:

- ❑ Network Infrastructure
- ❑ Personal Computing and Internet Access
- ❑ Electronic Resources
- ❑ OPAC (On-line Public Access Catalog)
- ❑ Virtual Library
- ❑ Staff Computing and Electronic Communication
- ❑ Training

Fiscal instability and fiscal responsibility directly impacted successful implementation of the goals and objectives in the most recent Technology Plan. It was necessary to prioritize projects and, unfortunately, not all goals were met. Due to staffing limitations, the ability to offer the level of training needed to meet user demand was greatly hampered. In addition, the OPAC was not upgraded or migrated to an alternate online catalog. The status of the goals and objectives of the Technology Plan (2007-2010) is summarized in Appendix A.

There is, though, much good news to report. The Library has been successful in attaining many of the goals defined in the plan. In particular, the following have been achieved:

- ❑ The network has remained stable, strong and vital;

- ❑ SirsiDynix Integrated Library System (ILS) has been upgraded to the state-of-the-art Symphony platform and WorkFlows Java-Client staff interface;
- ❑ Most outdated public and staff computers were replaced;
- ❑ Most libraries saw a significant increase in the number of public access PCs available and laptops began to supplement desktop computers;
- ❑ Public PC usage is at an all-time high;
- ❑ Most branch and member library servers were replaced with updated server hardware and software;
- ❑ Broadband was increased at all branches and contract libraries with minimum T1 availability;
- ❑ ISP bandwidth was upgraded at the Central Library to 60 MB supplementing System capabilities;
- ❑ Public wireless web access technology was implemented at all libraries;
- ❑ Antivirus software has been updated on every computer and server;
- ❑ All libraries received color printers to address library user printing needs;
- ❑ All libraries received scanners to address library user scanning needs;
- ❑ All public and staff workstations were upgraded to Microsoft Office 2007 Professional, Resume Maker 15, and Internet Explorer 7;
- ❑ Microsoft Exchange 2007 Server was implemented and staff e-mail was migrated to Microsoft Outlook 2007, providing web e-mail access;
- ❑ Downloadable audiobooks and videos were made available;
- ❑ RFID implementation began in select libraries.
- ❑ Illiad was implemented to electronically facilitate Interlibrary Loan (ILL) requests.

However, the effectiveness of the public access program has been greatly reduced because of the reduction of library personnel due to budget challenges and required restructuring. Many underserved, low literacy, unemployed and underemployed residents rely upon the library to provide access to technology training and skill development. Formal training classes at the Central Library, and at many other libraries, were limited. User assistance and informal instruction were available only at minimal levels. The B&ECPL administration recognizes that public training, in particular, needs to be strengthened. Results of the Library's Public Technology Survey 2009 revealed an overwhelming request for additional training by the respondents. In fact, upon survey analysis, adequate and increased training opportunities were the #1 most requested technology service enhancement.

The Library director and administrative team recognize that the "digital divide" cannot truly be reduced solely with hardware, software and adequate bandwidth to the Internet. A commitment to providing sustained and innovative professional development and user training programs along with identifying new methods for offering technical assistance to library users is required.

IV. GOALS AND STRATEGIES FOR USING TELECOMMUNICATIONS AND INFORMATION TECHNOLOGY

Each goal in the Technology Plan 2010-2013 is fundamental to one or more of the following institutional objectives:

- ❑ Evaluate and improve the B&ECPL's operations and services;
- ❑ Maintain and enhance state-of-the-art resources for the public and staff;
- ❑ Strengthen information access and delivery;
- ❑ Develop and train skilled staff;
- ❑ Promote the use of library resources and services;
- ❑ Secure the public and private funding necessary to fulfill the Library's mission.

The current strategic plan and five-year planning document continue to provide the blueprint to maintain and enhance the existing structure for library service. In addition, the Library's three key initiatives: literacy needs of the residents of Erie County, Special Collections and workforce development were reviewed to incorporate their relevance in technology planning. The results of a Public Technology Survey conducted in September-October 2009 overwhelmingly revealed that library users want (and need) more training. The Technology Plan 2010-2013 offers the specific details to address these needs.

Adequate staff and project commitment will be required to maintain and support the critical network infrastructure. In addition, new projects are needed to maintain and extend existing services. The plan recognizes the importance of both.

The Technology Plan 2010-2013 includes a list of potential projects identified and matched against the list of institutional objectives and fundamental goals of the strategic plan update, *Back to Basics...and Beyond the Five Year Plan of Service*, and the Library's current service priorities. Appendix B includes a Project Index as well as an Accomplishments Chart that will be the basis from which status is reported on an annual basis.

Each of the defined projects was summarized, prioritized and scheduled to meet the service goals and objectives of the B&ECPL. Each project was broken down by its goals, objectives and associated activities. The projects include target dates and details regarding the technology, training and other resources required. Budget requirements and challenges were developed for each project. A "Project Summary" for each initiative is outlined in Appendix C.

THE TECHNOLOGY BLUEPRINT - INFRASTRUCTURE & NETWORK

The significant technology accomplishments have only been possible because of the investment in the network infrastructure at each of the 37 library locations. Even with continuing operating budget challenges, the B&ECPL has been able to offer new and innovative programs, such as wireless access, because of the previous investment in the network. To continue to grow, the B&ECPL must work hard to support these gains by maintaining and enhancing network hardware, software and peripherals as necessary and building new elements as required.

The infrastructure goals of the Technology Plan 2010–2013 address improvements necessary to the hardware, network and systems already in use. They include:

- Existing Network & Infrastructure

The study “*Public Libraries and the Internet 2009*” conducted by the Information Institute at Florida State University, funded by the Bill & Melinda Gates Foundation and the American Library Association, emphasizes the *Quality of Public Access*. As with previous survey findings, public libraries continue to provide substantial public access Internet and computing services. However, what is notable about the 2009 survey’s findings is that even with increases in bandwidth, libraries continue to report that their connection speeds do not meet their needs. Public libraries continue to report that they are unable to meet user demands for services due to inadequate technology infrastructure, costs associated with operating and maintaining that infrastructure, and bandwidth quality/availability issues – all the while trying to enhance their services. What is unclear is how libraries will maintain their levels of public computer and Internet access services, much less extend and augment them given the current economic downturn.

The B&ECPL is extremely fortunate to have recently awarded a contract, after an extensive RFP process, to a telecommunications vendor who will provide WAN fiber optic cable services, with bandwidth expanded by at least 3 times over the existing T-1 based network, with many libraries’ capacity increasing over 6 times; significantly supporting the Library’s goal to provide future proof technology for the public and staff Internet use.

- New Library Construction & Renovations

A major Central Library facilities study is currently underway. Upon space analysis completion, and funding appropriation, support for the required data cabling and other technology improvements will be provided. Contingent upon City of

Buffalo funding, a new computer training lab will be established at the Niagara Branch Library. While there are no firm plans for renovation of other existing facilities or construction of new libraries, the Information Technology Department is prepared to provide consulting and support for any future projects.

- ❑ Wireless Communications

Wireless access has become vital to library operations. Improved wireless communication at all 37 library buildings will support and enhance technological initiatives (e.g. lending laptops for in-library use, people counters, hand-held devices such as PDAs and Smartphone's).

THE TECHNOLOGY BLUEPRINT - ONGOING AND NEW PROJECTS

Many of the projects reflect maintenance and enhancement to existing technology initiatives. Others represent brand new technologies that will allow Information Technology and library staff to meet the expanding technology wants and needs of the residents of Erie County.

These projects (outlined in Appendix C) include:

- ❑ Administration
- ❑ Databases
- ❑ Development Office
- ❑ Digitization
- ❑ e-Branch
- ❑ e-Communication
- ❑ e-Materials (Content)
- ❑ e-Materials (Devices)
- ❑ Human Resources

- ❑ Integrated Library System (ILS)
- ❑ Interlibrary Loan
- ❑ Intranet
- ❑ Library Construction
- ❑ Network
- ❑ Outreach
- ❑ Public Access Computing
- ❑ RFID
- ❑ Staff Computing
- ❑ Telephone System
- ❑ Training - Public
- ❑ Training - Staff
- ❑ Web Sites
- ❑ Wireless

V. NETWORK STRATEGY & SECURITY

Security of the network is critical to the B&ECPL. The resources of the Library must be protected and the privacy of user information must be guarded. The Technology Plan 2010-2013 includes a multi-faceted, comprehensive strategy to ensure effective system-wide security. On September 17, 2009, the Library's Board of Trustees adopted a new *Information Technology Security Policy*.

VI. ASSESSMENT OF TELECOMMUNICATION SERVICES, HARDWARE, SOFTWARE AND OTHER SERVICES NEEDED

Utilizing the goals and strategies developed for the planning period 2010–2013, an assessment of the existing telecommunication services as well as the hardware, software and other services was made to determine what would be required to achieve the objectives of the plan.

Appendix D contains a summarized and detailed inventory of the existing technology services, hardware, software and peripherals located at each of the 37 library buildings.

Additional telecommunications services, equipment or software may be required to: 1) satisfy the expected continued increase in public access and staff computing; 2) replace obsolete equipment, software and technologies; 3) decrease costs while maintaining or increasing service levels; 4) increase staff productivity; 5) respond to administrative and fiduciary requirements; and/or 6) fulfill the requirements for the new projects. Using this analysis, projections for future telecommunications services, hardware, software and other needs were made by library, for each year of the plan. The results have been added to each Library Summary in Appendix D.

VII. INFORMATION TECHNOLOGY DEPARTMENT

Established in 1998, the Network Support organization continued to mature but unfortunately suffered staff cuts as a result of the major fiscal crisis in 2005. Continued budgetary challenges have hampered the development of an optimally-staffed department that can fully support ever-increasing technology demands. The current department consists of a dedicated team of skilled, highly trained and experienced staff who support the existing use of technology at the B&ECPL and future development designed to meet the Library's strategic objectives.

Administrative restructuring in 2008 resulted in staffing re-appropriations and a name change for Network Support Department. The Information Technology Department is a name which more accurately reflects departmental responsibilities. The department is managed and directed by the Library's Information Technology Administrator who reports directly to the Assistant

Deputy Director, Information Technology. As part of the restructuring, a full-time outsourced systems engineer position and one part-time technical specialist position were eliminated. The department is currently staffed with four full-time and six part-time employees. They work together with two field engineers provided by VITEC Solutions as part of an "out-sourced services" contract. The entire team provides almost "7 x 24" support to the 37 libraries located throughout a 1,000 square-mile county. An organization chart is found in Appendix E.

The Technical Support Services Specialist works with the Information Technology Administrator to support the connectivity to the Internet, the WAN (Wide Area Network), 37 LANs (Local Area Networks), security issues and all public and staff workstations. They are currently assisted by the VITEC field engineers in the maintenance of over one thousand desktop devices, including all Pentium-based workstations, servers, routers, switches, WAPs (Wireless Access Points), networked high-capacity laser printers, scanners, receipt printers, bar code scanners and OCR wands.

In addition, they now supply all programming services and UNIX support for the Sirsi-Dynix Symphony Library Automation System (ILS), including the On-Line Public Access Catalog. The three full-time and four part-time computer operators maintain the Help Desk and perform routine system processing and critical server backups. Part-time staff members also deliver, set-up, monitor and sometimes act as trainers at libraries throughout Erie County using the B&ECPL's mobile Cyber Train technology.

The Information Technology staff will continue to consult and work with VITEC Solutions, on specialized projects, as part of an "out-sourced services" contract which supplements the time and expertise of department personnel.

The complexity of the B&ECPL network has and will continue to increase. Resource demands have expanded accordingly. Great strides have been made to develop methods to remotely support and maintain the vast hardware and software inventory. A major objective for 2010-2013 is to continue to take advantage of these productivity tools, to maintain and upgrade system software and applications.

The Information Technology Department is a vital resource to the B&ECPL. Staff members consistently demonstrate a dedication to maintaining and strengthening network services. In addition, the team is also dedicated to excellent public service. They provide support quickly and professionally, when

it is expected and needed.

Also as a result of B&ECPL System restructuring, additional organizational changes took place in 2009. A Technology Support division was integrated administratively with the Information Technology Department. A small, but very dedicated core staff will continue working closely with the IT team to insure appropriate staff training accompanies technology enhancements and advancements. The changes also resulted in an integration of the webmaster position and the Library's Training Lab into the Information Technology and Technology Support Division. This alliance will help to insure public awareness using innovative communication tools and appropriate public technology training.

VIII. PROFESSIONAL DEVELOPMENT STRATEGY

Staff training has been integral to the B&ECPL's successful deployment of technology since 1997 and has been a very important element in all Technology Plans. However, as previously noted, fiscal challenges have had a direct negative effect on the number of training classes that have been offered.

Training for both staff and the public is integrated in the *Five-Year Plan of Service* and Strategic plan. Each project in the Technology Plan 2010-2013 includes its own "training requirements," which will be planned, budgeted and scheduled in conjunction with enhanced training opportunities or the implementation of new technology.

Steps continue to restore a meaningful staff training program. In 2006 a milestone was achieved when the B&ECPL's first "Staff Development Day" was held for over 300 staff members from all locations and every level of the B&ECPL organization. They gathered to refresh skills, learn new techniques and reacquaint themselves with their colleagues from across the System. The program served as the model for the event which has since been held on an annual basis. In late 2009, a Librarian I - RPT position was created to provide a dedicated and stable technology support position for the Central Library's Training Lab.

Professional development activities will continue to be coordinated throughout the Library System. New and innovative methods, made possible

with the latest technologies, are being examined to identify ways in which minimum staff can conduct the training while maximizing the results. In particular, the Training Lab Technology Support Librarian will explore, and implement when feasible, the use of the cost-effective alternative methods for developing curriculum and program materials and conducting classes which will maximize the time commitment and audience potential, including but not limited to:

- ❑ New Development Tools (e.g., Camtasia, purchase courseware)
- ❑ New Delivery Processes (e.g., Webinars, Regional Training Labs, expand Traveling Trainer programs, Videoconferencing, Streaming Video, Podcasting)
- ❑ New Staffing Models (e.g., collaboration with vendors, use of technical specialists)

The B&ECPL will continue to use Library 2.0 and social networking tools to share insights, reinforce skills that have been already introduced and train staff (e.g. JavaJabber Blog, staff Ning site, departmental wikis). New and emerging communication tools, including hand-held device technologies will continually be evaluated and implemented when appropriate and feasible; to maximize staff learning, training, participation and productivity.

When appropriate for skill building or new technology training, the Central Library Training Lab, other B&ECPL training labs and the mobile Cyber Trains will be used to provide mandatory training for staff members.

In addition to this in-house training, members of the B&ECPL staff participate in conferences conducted off-site by other professional organizations. For example:

- Designated Information Technology and Technology Support will attend the annual SirsiDynix Users' Conference and Regional User group meetings to insure thorough understanding of existing and new products. National ALA and PLA conferences, as well as local sessions conducted by organizations such as the Western New York Library Resources Council (WNYLRC), will be attended by selected staff members and information shared, as needed. The B&ECPL will also be represented at other specialized conferences (e.g. Computers in Libraries), when appropriate and feasible. These outside conferences

will serve to validate the B&ECPL's projects and insure that staff is apprised of new technologies and their library applications.

- Staff members will be encouraged to participate in appropriate Webinars and Distance-Learning programs, which maximize staff exposure and minimize organizational costs.
- The staff in the Information Technology Department will obtain specialized training in new technologies as needed from approved vendors and/or educational institutions. They will also avail themselves of the Library's excellent collection of technical materials as well as take advantage of online free and/or subscription resources.

IX. BUDGET RESOURCES

Appendix F provides an analysis of the costs necessary to implement the Library's goals and related objectives as well as the funding available for these projects. To best coordinate with the Library's calendar fiscal year, four project years are identified: July 1-December 31, 2010; January 1 - December 31, 2011; January 1- December 31, 2012; and January 1 - June 30, 2013. Although at the present time not all projects are fully funded, the Library will continue to actively solicit grant funds and partnering opportunities to supplement resources dedicated in the B&ECPL operating budget. In addition, the Library anticipates that the Board-approved Dedicated Fund Balance at the end of 2009 will include approximately \$680,000 for Equipment & Technology Replacement. This reserve has been established to supplement technology initiatives identified as major and/or priority needs that are not funded in the operating budget or through other sources. All expenditures from the Equipment and Technology Replacement reserve require Library Board approval.

X. ONGOING EVALUATION PROCESS

The B&ECPL Technology Plan 2010-2013 will be reviewed regularly and updated annually, if needed, in conjunction with the development and subsequent approval of the annual operating and capital budgets and adopted goals and objectives. The Project Index and Accomplishments Chart in

Appendix B will be reviewed and status reported on an annual basis. As a result of actual funding, the Library's strategic and operational requirements, changes in the needs of the community and the emergence of new technologies, projects may be added, changed, delayed or eliminated. Professional development tactics, budgets and schedules will be adjusted accordingly. The revised document will be approved by the Library Director and posted on the Library's website.

Throughout each year, the Plan will be fine-tuned in coordination with B&ECPL priorities and projects. Ongoing input will be provided by the Library Director, Chief Operating Officer, Chief Financial Officer and the entire administrative team including those responsible for Human Resources, Development and Planning, Central Library and Branch Services and Special Collections. The Library's Assistant Deputy Director Information Technology will meet on a regular basis with appropriate Information Technology and Technology Support managers to evaluate progress, prioritize initiatives, and re-allocate resources as necessary. To best meet the needs of all B&ECPL libraries, feedback on technology developments will be solicited from directors, department heads and staff.

Ongoing input will be solicited from a variety of sources, including staff and the public, employing innovative communication tools. The B&ECPL will utilize electronic tools (e.g. Tech Talk Group on staff Ning site) providing a venue for real time discussion. Alternate communications tools (e.g. online surveys) will be used to solicit additional public and staff comment when appropriate.

The B&ECPL will continue to track usage and satisfaction statistics, in particular relating to public access computing and training classes. In addition, tracking software may be evaluated and upgraded, if appropriate and feasible, to insure valid and comprehensive statistical analysis of electronic usage in order to understand and maximize the "user experience."

In the evaluation of the goals and objectives of the Technology Plan 2010-2013, specific outcomes will be measured for each project by the project manager and verified by the administrative team, led by the Library director.

Monthly status reports will be provided to the Library Chief Operating Officer (COO). Appropriate reviews of the Library Goals and Objectives will be conducted with the entire administrative team. These status reports will be approved by the Library Director and posted on the Library's website.

XI. ACKNOWLEDGEMENTS

The B&ECPL expresses its sincere appreciation to the following organizations for their financial contributions, technical guidance and never-ending encouragement. Without their support, the successful execution of the 1997, 2001, 2004 and 2007 Technology Plans would not have been possible.

- ❑ Bill and Melinda Gates Foundation
- ❑ County of Erie Legislature
- ❑ Verizon Super Pages
- ❑ MCI LibraryLINK
- ❑ The Library Foundation of Buffalo and Erie County, Inc.
- ❑ Margaret L. Wendt Foundation
- ❑ James H. Cummings Foundation
- ❑ Goldome Foundation

In addition, the input of the staff and the community has been invaluable in the development of this plan. In particular, the noteworthy and significant contributions to this plan by the following individuals and groups are deeply appreciated:

- ❑ B&ECPL Library Director Bridget Quinn-Carey and the entire Administrative Team
- ❑ IT Administrator Toni Naumovski
- ❑ Technology Support Managers Maureen McLaughlin and Kelly Donovan
- ❑ Staff Focus Group Participants
- ❑ Over 2,300 respondents to the 2009 B&ECPL Public Technology Survey

The B&ECPL recognizes that excellence is not an accident. Only with continued funding from committed benefactors and sustained diligence and dedication of the staff will the Technology Plan 2010–2013 achieve its goal to *get "Back to Basics...and Beyond!"*

Buffalo and Erie County Public Library
Technology Plan (2007 - 2010)

Accomplishments

Goal Number	Project	Description	Year	Status	Type	Comments	Project No.
1,6	Administration	Administration - e-Rate	2007	Ongoing	Carryover	Successfully applied for and received each year of plan - Carryover	1
1,6	Administration	Administration - State Reports	2007	Ongoing	Carryover	Successfully submitted each year of plan - Carryover	1
3	Digitization	Develop a Digitization Plan	2007	Hold	Carryover	Background research underway	2
3	Digitization	Digitization of unique items in the B&ECPL collection	2007	Ongoing	Carryover	Partnerships with WNYLRC and Wm. S. Hein &	2
2	e-Materials	Examine the addition of materials in a variety of formats and from other vendors (e.g. e-Books, e-Audio, e-Video)	2007	Ongoing	New	Evaluating vendor services (e-Books added)	3
2	e-Materials	Implement downloadable audio books and videos from Overdrive	2007	Completed	New	Added downloadable audio books and videos	3
2	e-Materials	Installation of "download" kiosks at Central Library and selected branch and town libraries	2007	Hold	New	Bandwidth issues restrictive	3
3	e-Branch	Enhance online services, including reference & delivery (e.g. Remote Reference Service - 24x7; IM; Chat)	2007	Ongoing	New	Implemented AskUs 24/7 collaboration with WNYLRC	4
2	Electronic Resources	Establish online clearinghouse for government information	2008	Hold	New	On Hold	5
2	Electronic Resources	Electronic Resources - Collection Management	2007	Ongoing	Carryover	Carryover	5
3	Electronic Resources	Electronic Resources - Re-Design WebFeat web site and refine as necessary	2007	Completed	Carryover	Complete	5
3	Electronic Resources	Electronic Resources - Develop and Issue a RFP for Federated Search System, Evaluate Responses and Implement New System	2009	Completed	New	Issued and evaluated RFP, awarded to MultiSearch and new interface implemented	5
1	Electronic Resources	Electronic Resources - Performance Measures (Usage Statistics)	2007	Ongoing	Carryover	Carryover	5
1	Electronic Resources	Electronic Resources - Electronic Resource Management (Contract Management)	2007	Ongoing	Carryover	Carryover	5
3	Electronic Resources	Electronic Resources - Investigate use of & possibly install Serials Solutions (e-Journal Access and Management)	2007	Ongoing	Carryover	Carryover	5
4	e-Mail	New e-Mail System	2007	Completed	Carryover	Microsoft Office Exchange implemented 2009	6
4	e-Mail	New e-Mail System - Automatic maintenance of necessary internal distribution lists	2007	Ongoing	Carryover	Lists created & managed by IT Department	6
4	e-Mail	New e-Mail System - SPAM Filter	2007	Ongoing	Carryover	Implemented and being maintained	6
3	ILL	Improve ILL Processes (e.g. Procure & implement software (i.e. OCLC ILLiad; Ariel)	2007	Completed	Carryover	Implemented ILLiad	7
1	Intranet	Intranet - Automation of more internal processes (e.g. expand use of fillable forms; automatic routing)	2007	Hold	Carryover	Carryover	8
4	Intranet	Intranet - Maintain & Enhance Content and Interface	2007	Ongoing	Carryover	Minor Intranet redesign and integrated Web 2.0 technology	8
1, 3	Outreach	Investigate and install new services to serve the underserved residents of Erie County (e.g. Books by Mail for homebound; new type of mobile service)	2009	Hold	New	Carryover	9
1	Network	Maintain & Enhance Network - Upgrade & Maintain Wide Area Network (WAN)	2007	Ongoing	New	RFP issued and contract awarded to WAN Vendor	10
1	Network	Maintain & Enhance Network - Internet Bandwidth Upgrades	2007	Ongoing	Carryover	Bandwidth upgraded - Carryover	10
1	Network	Maintain & Enhance Network - Security	2007	Ongoing	Carryover	Information Technology Security Policy (Board adopted 9/17/09).	10
1	Network	Maintain & Enhance Network - Maintain Secure Virtual Private Network (VPN)	2007	Ongoing	Carryover	Implemented, in use, and being maintained	10
1	Network	Maintain & Enhance Network - Routers, switches, cabling	2007	Ongoing	Carryover	Replaced as required - Carryover	10
1	Network	Maintain & Enhance Network - Servers	2007	Ongoing	Carryover	Servers replaced or recycled for other use, as needed.	10
1	Network	Maintain & Enhance Network - Obtain Network Monitoring and Troubleshooting Tools	2007	Ongoing	Carryover	Network traffic monitoring tools implemented	10
4	Network	Strengthen Network Support's ability to maintain and enhance technology for the public and staff of the B&ECPL	2007	Ongoing	Carryover	Staffing challenges ongoing	10
1,3	Library Construction	Data cabling and workstation moves for New Libraries and Renovations for Central Library & Others	2007	Completed	Carryover	Renovations @Orchard Park and new storefront location for North Park	11
1,3	Library Construction	LAN/WAN for Additional New Libraries and Renovations	2007	Completed	Carryover	Completed for all renovations and 1 replacement building (North Park)	11
3	Public Access Computing	Public Access Workstations - Assistive technology (software and accessories for persons with disabilities)	2007	Ongoing	Carryover	Added large Trackballs at all libraries	12
1,6	Public Access Computing	Public Access Workstations - Maintain Filters for CIPA Compliance	2007	Ongoing	Carryover	Maintained as required	12

Buffalo and Erie County Public Library
Technology Plan (2007 - 2010)

Accomplishments

Goal Number	Project	Description	Year	Status	Type	Comments	Project No.
1	Public Access Computing	Public Access Workstations - Patron Self Authentication for Public Access Computing Sign-up	2007	Completed	Carryover	Implemented EnvisionWare, Inc. PC Reservation	12
1	Public Access Computing	Public Access Workstations - Printer Cost Recovery	2007	Ongoing	Carryover	Implemented LPT at all libraries and coin op machines at Central	12
2	Public Access Computing	Public Access Workstations - Spanish Language version "Public Access" Model	2008	Hold	Carryover	Carryover for review with updated OPAC	12
2	Public Access Computing	Public Access Workstations - Add, Maintain and/or Replace Obsolete Public Access Workstations, as Needed	2007	Ongoing	Carryover	Maintained and replaced public PCs - Carryover	12
2	Public Access Computing	Public Access Workstations - Allow use of Read-only CD-ROM Drives	2007	Hold	Carryover	Security policies currently prohibit	12
2	Public Access Computing	Public Access Workstations - Maintain & Enhance Model (i.e. New & Regularly Updated Software (e.g. Adobe Acrobat)/Hardware (e.g. color printers))	2007	Completed	Carryover	Installed MS Office 2007 and IE7 on all public PCs	12
3	Public Access Computing	Public Access Workstations - Test and Implement the Secure Lending of Laptop Computers within Library	2009	Completed	New	66 Laptops available in 15 libraries - Carryover	12
2	Public Access Computing	Public Access Workstations - Provide specialized "centers" at selected libraries for various patron populations (e.g. Gaming for Young Adults; Video Editing; Desktop Publishing; Shop Manuals)	2007	Ongoing	New	Teen Room established at Central Library and gaming stations available in select locations	12
2	Public Access Computing	Public Access Workstations - Provide Appropriate and User-friendly Interface for Public PC's.	2009	Ongoing	New	Carryover	12
3	Public Access Computing	Provide fax services for patrons in selected libraries	2007	Ongoing	New	Public fax available at Central, Dudley Branch and Newstead - Carryover	12
1,2	Public Access Computing	Evaluate Continued Use of Citrix	2009	Completed	New	Citrix retired (no longer in use)	12
1	Process Improvement Project	Continued support of Process Improvement Project	2007	Completed	Carryover	Project no longer active	13
1	RFID	Investigate Use of RFID	2008	Completed	Carryover	RFP issued and contract awarded	14
1	RFID	Begin Implementation of RFID at B&ECPL Libraries	2009	Ongoing	New	Implementation at city branch libraries - Carryover	14
2	Staff Computing	Staff Workstations - Add, maintain, and/or replace obsolete staff workstations as needed.	2007	Ongoing	Carryover	PCs maintained and several replaced - Carryover	15
2	Staff Computing	Upgrade Sirsi Unicorn Workflows to Java Client (Need to investigate use of Citrix; may require memory upgrade in existing PCs and purchase of new PCs)	2007	Completed	New	All staff PCs adequate - Java WorkFlows Client implemented	15
6	Staff Computing	Maintain SurfControl SuperScout filter on staff workstations for CIPA compliance	2007	Carryover	Carryover	In CIPA compliance - Carryover	15
2	Staff Computing	Staff Workstations - Expand and Update Software (use Citrix where appropriate) & Maintain Filter	2007	Ongoing	Carryover	MS Office 2007 Professional and IE7 added to all staff PCs - Carryover	15
2	Support Services	Maintain and upgrade, if necessary, SIRSI ILS	2007	Completed	Carryover	Upgraded to Symphony - Carryover	16
2	Support Services	Replace the Sirsi "C" Workstation Client with Java Client	2009	Completed	New	Java WorkFlows implemented	16
1	Support Services	Remove Unneeded Records for "Closed Libraries" from Sirsi Database	2008	Completed	New	Records from 15 closed libraries and Mobiles collection purged	16
1	Support Services	Sirsi Patron Self-charge at Other Locations	2007	Completed	Carryover	Self check at Central, Amherst libraries, North Park, Crane and Niagara	16
1	Support Services	Sirsi Implementation - e-Commerce Solutions - Online Payment Options	2007	Completed	Carryover	e-Commerce implemented	16
1,2,3	Support Services	Sirsi Implementation - Implement Authority Control	2008	Hold	New	Targeted for 2010 - Carryover	16
3	Support Services	Replace OPAC (Online Public Access Catalog) - Spanish Language Option	2008	Hold	New	Targeted for 2010 - Carryover	16
3	Support Services	Replace OPAC (Online Public Access Catalog) - Specialized Children's Version	2008	Hold	New	Targeted for 2010 - Carryover	16
3	Support Services	Replace OPAC (Online Public Access Catalog) - Search Other Catalogs (e.g. Z39.50; WorldCat)	2008	Hold	New	Targeted for 2010 - Carryover	16
3	Support Services	Replace OPAC (Online Public Access Catalog) - Improve User Friendliness (e.g. AquaBrowser)	2008	Hold	New	Hold until new catalog implementation - Carryover	16
1	Support Services	Improved collection development and ordering processes (e.g. On-Line ordering of all materials - use of 9XX Ordering)	2007	Ongoing	New	9xx ordering with Baker & Taylor and Midwest Tape - Carryover	16
1	Support Services	Create three new Sirsi library locations for the Erie County Home and Infirmary, Correctional Facility and Holding Center.	2008	Completed	New	Locations created	16
1,3	Support Services	Investigate Use of Text Messaging for Library Notices	2009	Hold	New	Preliminary analysis made - Carryover	16

Buffalo and Erie County Public Library
Technology Plan (2007 - 2010)

Accomplishments

Goal Number	Project	Description	Year	Status	Type	Comments	Project No.
1	Support Services	Examine Possible Scanning of Library Card Applications for On-Line Staff Retrieval	2008	Hold	New	Preliminary analysis made - Carryover	16
1	Telephone System	New Telephone System	2007	Hold	Carryover	Carryover	17
5	Training	Training - Enhance Curriculum for Patrons to Meet Community Needs	2007	Ongoing	Carryover	Central Training Lab and CyberTrains used to conduct public classes -Carryover	18
4	Training	Training - Enhance Curriculum for Staff to Meet Community Needs & New Technologies	2007	Ongoing	Carryover	Classes held - Carryover	18
5	Training	Training - Investigate and Implement New Delivery Processes (e.g. Distance Learning, Regional Training Labs, Traveling Trainer, Videoconferencing)	2007	Ongoing	Carryover	Instructors provided for Cyber Train classes - Carryover	18
2	Training	Training - Interactive On-line Tutorials	2007	Hold	Carryover	Carryover	18
3	Web Site	Web Site Upgrade - Creation & Management Software	2007	Hold	Carryover	Insufficient resources - Carryover	19
3	Web Site	Web Site Upgrade - Customization/personalization	2007	Hold	Carryover	Insufficient resources - Carryover	19
1	Web Site	Web Site Upgrade - Electronic Dissemination - Promote Library Events and Usage	2007	Ongoing	Carryover	Carryover	19
1	Web Site	Web Site Upgrade - Maintain & Enhance Reference Desk	2007	Ongoing	Carryover	Reference Desk redesigned	19
5	Web Site	Web Site Upgrade - Online Program Registration	2007	Hold	Carryover	Carryover	19
2	Web Site	Web site Upgrade - Universal Design	2007	Hold	Carryover	Carryover	19
1,2,3,5	Web Site	Web site Upgrade - Consider addition of specialized subject information currently maintained in paper/computer files to www.buffalolib.org or becp14all.buffalolib.org (e.g. GRO local history databases or finding aids)	2008	Hold	Carryover	Carryover	19
3	Web Site	Web Site Upgrade - Major Redesign (including possible Sirsi Rooms/EPS)	2007	Hold	New	Insufficient resources - Carryover	19
3,4,5	Web Site	Investigate using new technologies to improve communication with staff and the residents of Buffalo & Erie County (e.g. Blogs, RSS Feeds, Wiki's, Podcasts)	2007	Ongoing	New	Wikis, blogs, Ning, Facebook and Twitter being used - Carryover	19
3	Web Site	Explore methods for regular delivery of B&ECPL announcements, newsletters and/or advocacy information to a large (greater than 20,000) number of cardholders who have 'opted-in' to receive information from the Library	2009	Hold	New	Carryover	19
1,2,3,5	Wireless	Continue to investigate & implement wireless technologies for staff and public use	2007	Completed	Carryover	Wireless available at all B&ECPL libraries	20

**Buffalo and Erie County Public Library
Project Index for Technology Plan 2010-2013**

Project No.	Project	Library Plan Goal No.	Description	Year	Type	Status
1	Administration	1,6	Administration - e-Rate	2010	Carryover	Ongoing
1	Administration	1,6	Administration - State Reports	2010	Carryover	Ongoing
1	Administration	6	Pursue pertinent grant opportunities	2010	New	
2	Databases	1,2,3	Maintain or explore replacement of current federated search product	2010	Carryover	Ongoing
2	Databases	1,2,3	Upon federated search vendor contract expiration, develop & issue RFP, select and implement	2012	Carryover	
2	Databases	1,2,3	Evaluate Electronic Resource Management Software	2010	Carryover	
2	Databases	1,2,3	Examine integration of e-Journal Access and Management Software	2010	Carryover	
3	Development Office	5,6	Evaluate fundraising software, acquire & implement	2010	Carryover	
3	Development Office	5,6	Investigate e-Commerce solutions for online donation, acquire and implement	2010	Carryover	
3	Development Office	5,6	Develop a program or process for mass e-mail campaigns	2010	Carryover	
4	Digitization	3	Develop a Digitization Plan	2010	Carryover	Ongoing
4	Digitization	3	Digitize unique items in the B&ECPL collection	2010	Carryover	Ongoing
4	Digitization	3	Investigate online reproduction sales, implement if appropriate and feasible	2011	New	
4	Digitization	3	Investigate collection management software for unconventional use/loan of items; acquire & implement if appropriate and feasible	2011	New	
5	e-Branch	3	Enhance and promote Collaborative 24/7 reference service	2010	New	
5	e-Branch	3	Evaluate alternative real time communication tools	2010	Carryover	
5	e-Branch	3	Investigate knowledge management database software	2010	Carryover	
6	e-Communication	1,4,5	Maintain state-of-the-art e-mail system (e.g.. Exchange 2007)	2010	New	
6	e-Communication	1,4,5	Maintain e-mail archiving device	2010	New	
6	e-Communication	1,4,5	Evaluate and implement appropriate alternative electronic communication tools	2010	New	
6	e-Communication	1,4,5	Acquire and implement digital display monitors in public areas	2011	New	
7	e-Materials (Content)	2,3	Maintain and enhance downloadable services	2010	Carryover	Ongoing
7	e-Materials (Content)	2,3	Expand library-generated content	2010	New	
7	e-Materials (Content)	2,3	Evaluate gaming software; implement when feasible	2010	New	
8	e-Materials (Devices)	2,3	Monitor emerging mobile technologies and developments	2010	New	
8	e-Materials (Devices)	2,3	Acquire and integrate devices to enhance staff productivity and public access	2010	New	
9	Human Resources	1,2,3	Investigate electronic alternatives to paper personnel records	2010	New	
9	Human Resources	1,2,3	Investigate alternatives for electronic staff time-keeping and time-logging	2010	New	
10	Integrated Library System	1,2,3	Maintain and upgrade ILS as necessary	2010	Carryover	Ongoing
10	Integrated Library System	1,2,3	Investigate alternate electronic methods for delivery of Library Notices generated through ILS as well as Library-information to cardholders	2010	Carryover	Ongoing
10	Integrated Library System	1,2,3	Implement new catalog interface (OPAC)	2010	Carryover	Ongoing
10	Integrated Library System	1,2,3	Investigate and implement appropriate OPAC enhancements (e.g.. automated link checkers, user-experience features, mobile interfaces, open source CMS, self-initiated PIN changes)	2010	New	
10	Integrated Library System	1,2,3	Prepare RFP, award and implement ongoing automated Catalog Authority Control	2011	Carryover	
10	Integrated Library System	1,2,3	Investigate alternate Hosting Options (e.g.. open source, Saas) and/or Content Management Systems (e.g.. Sirsi Enterprise)	2011	New	
10	Integrated Library System	1,2,3	Investigate and implement appropriate electronic payment or cardholder deposit account options	2011	Carryover	
10	Integrated Library System	1,2,3	Investigate expanded self-service operations (e.g.. automated materials vending)	2011	New	
11	Interlibrary Loan (ILL)	3	Improve ILL processes (e.g.. promote electronic document delivery)	2010	Carryover	

**Buffalo and Erie County Public Library
Project Index for Technology Plan 2010-2013**

Project No.	Project	Library Plan Goal No.	Description	Year	Type	Status
11	Interlibrary Loan (ILL)	3	Maintain and promote Illiad service	2010	Carryover	Ongoing
12	Intranet	1,4	Enhance content and interface	2010	Carryover	
12	Intranet	1,4	Develop intelligent documents features and implement into Active Directory	2011	New	
13	Library Construction	1,3,6	Provide data cabling and equipment support for new library construction and/or renovation	2010	Carryover	
13	Library Construction	1,3,6	LAN/WAN support for any new library construction and/or renovation	2010	Carryover	
14	Network Support	1,2,6	Work with vendor to insure successful WAN upgrade with fiber optic cable in all 36 libraries	2010	New	
14	Network Support	1,2,4,6	Upgrade Internet bandwidth to meet needs of library users and staff	2011	New	
14	Network Support	1	Upgrade firewall software and hardware	2011	New	
14	Network Support	1	Maintain and possibly upgrade VPN	2012	Carryover	Ongoing
14	Network Support	1	Maintain and enhance Network Security	2010	Carryover	Ongoing
14	Network Support	1	Maintain server operating systems; upgrade hardware and software as necessary	2010	Carryover	Ongoing
14	Network Support	1	Maintain and as necessary replace switches that have reached 'end of life'	2011	Carryover	Ongoing
14	Network Support	1,2,4	Review available and required Network monitoring and troubleshooting tools; acquire as needed	2010	Carryover	
14	Network Support	1,2,4	Evaluate Help Desk software; replace when feasible	2010	New	
14	Network Support	1,2	Investigate log analyzing hardware and software to retrieve Internet use history	2011	New	
14	Network Support	4	Strengthen Information Technology Department's ability to maintain and enhance technology for the public and staff of the B&ECPL	2010	Carryover	
15	Outreach	1,3,5,6	Promote and support literacy initiatives	2010	New	
15	Outreach	1,3,5,6	Investigate and implement appropriate services for underserved populations	2010	Carryover	
16	Public Access Computing	2	Provide sufficient numbers of current workstations to meet users needs	2010	Carryover	Ongoing
16	Public Access Computing	2	Expand number of laptops available for public use	2010	New	
16	Public Access Computing	2	Provide sufficient numbers and appropriate hardware (e.g., printers) and peripherals to meet users needs	2010	Carryover	Ongoing
16	Public Access Computing	1,2	Maintain and upgrade self-authentication software for public PC sign-up	2010	Carryover	Ongoing
16	Public Access Computing	2	Maintain and upgrade filtering hardware and software to insure CIPA compliance	2010	Carryover	Ongoing
16	Public Access Computing	1,2	Maintain and enhance printer cost recovery options (including printing from individual's laptops)	2010	New	
16	Public Access Computing	1,2	Evaluate and upgrade current software and applications to insure state-of-the-art versions and resources	2010	New	
16	Public Access Computing	1,2	Upgrade and expand adaptive technology and assistive devices	2010	Carryover	
16	Public Access Computing	1,2,6	Establish specialized 'centers' at selected libraries (e.g., gaming, Video Editing)	2012	New	
16	Public Access Computing	1,2	Investigate Authentication and Accounting Module (AAM); implement if appropriate and feasible	2011	New	
16	Public Access Computing	1,2	Evaluate expanded public fax service; implement if appropriate and feasible	2010	Carryover	Ongoing
16	Public Access Computing	1,2	Investigate digital content download stations; implement when feasible	2011	New	
17	RFID	1,2,6	Implement RFID at Central Library and Amherst libraries	2010	Carryover	Ongoing
17	RFID	1,2,6	Implement RFID at any libraries receiving NYS Construction funding	2010	New	
17	RFID	1,2,6	Develop implementation plan for libraries not funded for RFID; implement when feasible	2011	New	
17	RFID	1,2,6	Prepare RFP for automated materials handling system (AMH) for Central Library; implement when appropriate	2011	New	
17	RFID	1,2,6	Evaluate expanded RFID options and technologies (e.g., automated returns, enhanced media security, library card technology); implement when feasible	2011	New	
18	Staff Computing	2,4	Maintain, add and/or replace computer hardware and associated peripherals	2010	Carryover	Ongoing
18	Staff Computing	6	Maintain and upgrade appropriate filter on staff workstations to insure CIPA compliance	2010	Carryover	Ongoing
18	Staff Computing	2,4	Upgrade or add appropriate applications, software, plug-ins etc.	2010	Carryover	Ongoing
18	Staff Computing	2,4	Upgrade ILS client software when appropriate	2010	Carryover	Ongoing

**Buffalo and Erie County Public Library
Project Index for Technology Plan 2010-2013**

Project No.	Project	Library Plan Goal No.	Description	Year	Type	Status
19	Telephone System	1,2	Investigate system-wide VoIP Telephony System; implement if appropriate and feasible	2011	Carryover	
20	Training - Public	5	Insure up-to-date stationary training labs and mobile CyberTrains	2010	New	
20	Training - Public	5	Expand and enhance curriculum and training opportunities to meet community needs	2010	Carryover	Ongoing
20	Training - Public	5	Explore alternative training options; acquire appropriate hardware and software; implement when feasible	2010	Carryover	
21	Training - Staff	4	Insure adequate staff training to meet or exceed minimum skill levels needed to perform job requirements	2010	Carryover	Ongoing
21	Training - Staff	4	Utilize Library 2.0 and beyond services and resources	2010	New	
21	Training - Staff	4	Develop and implement plan to insure Library 2.0 basic skill sets	2011	New	
21	Training - Staff	4	Explore alternative training options; acquire appropriate hardware and software; implement when feasible	2011	Carryover	Ongoing
22	Web Sites	1,2,3,5	Rebuild and redesign web site, maintaining universal design	2011	Carryover	
22	Web Sites	1,2,3,5	Evaluate, develop and insure accuracy of content; implement when feasible automated link checkers and HTML validation tools	2011	Carryover	Ongoing
22	Web Sites	1,5	Add appropriate specialized collections and content	2010	Carryover	Ongoing
22	Web Sites	2,5	Enhance digital branch features using appropriate interactive social networking	2010	New	
22	Web Sites	1,2,5	Investigate e-Commerce alternatives; implement if appropriate and feasible	2011	Carryover	
22	Web Sites	3,4	Investigate distributed content management system (CMS); implement if appropriate and feasible	2011	New	
22	Web Sites	2,3	Investigate and evaluate integration of OPAC and website	2012	New	
22	Web Sites	1,2	Explore creation of customized/personalized interfaces	2010	New	
23	Wireless	2,3	Improve and expand wireless access to all B&ECPL facilities	2010	Carryover	Ongoing
23	Wireless	1,2,3,5	Evaluate development of web interface for mobile devices; implement when appropriate and feasible	2010	New	
23	Wireless	4	Evaluate use of handheld devices for assisting library users or collecting data; implement when feasible	2010	New	
23	Wireless	1	Investigate use of wireless technology for temporary and permanent cabling requirements in select locations	2010	Carryover	Ongoing
23	Wireless	2	Investigate solutions to printing from individual-owned laptops	2010	New

BUFFALO AND ERIE COUNTY PUBLIC LIBRARY

TECHNOLOGY PLAN

2010 - 2013

PROJECT SUMMARY SHEET
ADMINISTRATION

Target Date: 2010 &
Ongoing

Project Number: 1

Library Goal:

Evaluate and improve the B&ECPL's operations and services.

Secure the public and private funding necessary to fulfill the Library's mission.

Objectives:

Seek funds to support and enhance the Library's technology-based services.

Satisfy New York State mandated reporting requirements for basic aid.

Activities:

1. Apply annually for e-rate discounts for libraries throughout the System.
2. Actively pursue all pertinent grant opportunities.
3. Generate the reports necessary to complete the Annual Reports to the State of New York.

Technology Requirements:

1. Updated Technology Plan.
2. State of the art ILS (Integrated Library system).
3. Technological protection measures (filters) maintained for CIPA compliance and eligibility to apply for discounts on "internal connections" (e.g. Websense).

4. Access to Internet and workstations equipped with a stable browser and an application suite of products.

Training Requirements:

1. Participation in annual e-Rate training programs.
2. Staff training to insure responsible maintenance and administration of the Library's ILS (Integrated Library System).
3. Ongoing or targeted staff training to support technology initiatives or complete reporting requirements.

Other Resources Needed:

Project Budget:

N/A

All costs are included in other projects.

BUFFALO AND ERIE COUNTY PUBLIC LIBRARY

TECHNOLOGY PLAN

2010 - 2013

PROJECT SUMMARY SHEET
DATABASES

**Target Date: 2010
& Ongoing**

Project Number: 2

Library Goals:

Evaluate and improve the B&ECPL's operations and services.

Maintain and enhance state-of-the-art resources for public and staff.

Strengthen information access and delivery.

Objectives:

Expand and strengthen electronic collections.

Provide more relevant indicators of library use through the measurement of electronic library services and resources.

Activities:

1. Insure collection management of the online electronic resources (e.g. add new databases and weeding underutilized databases).
2. Maintain a current federated search product (e.g. MulitiSearch).
3. Explore replacement of current federated search product.
4. If appropriate; upon vendor contract expiration, develop and issue and RFP, evaluate responses, select (and implement, if necessary) the product.
5. Insure accurate and relevant federated search usage statistical reporting by database and by delivery point (i.e. in-library, remote).

6. Evaluate purchase of Electronic Resource Management software to control the licenses and contracts for B&ECPL database subscriptions and investigate any associated content management software (CMS).
7. Examine the integration of e-Journal Access and Management software (e.g. Serials Solutions) to help librarians and patrons more easily find and use available full-text e-journals.

Technology Requirements:

1. Federated search system software or viable alternative.
2. Possible Electronic Resource Management Software.
3. Possible e-Journal Access and Management Software.
4. Web Proxy.
5. Servers, if required by software.
6. Internet Access with sufficient bandwidth.

Training Requirements:

1. Additional database use training for staff and patrons.
2. Possible training in use of Electronic Resource Management Software for staff.
3. Possible training in use of e-Journal Access and Management Software for staff and patrons.

Other Resources Needed: N/A

Project Budget: \$ 29,000.00 (Three year Webfeat Maintenance Agreement pre-paid 2009-2011)

BUFFALO AND ERIE COUNTY PUBLIC LIBRARY

TECHNOLOGY PLAN

2010 - 2013

PROJECT SUMMARY SHEET
DEVELOPMENT OFFICE

Target Date: 2010

Project Number: 3

Library Goal: Evaluate and improve the B&ECPL's operations and services.

Objectives: Promote the use of library resources and services.

Secure the public and private funding necessary to fulfill the Library's mission.

Activities:

1. Evaluate fundraising software for recording, tracking, reporting, managing donors and their contributions. Acquire and implement if appropriate and feasible.
2. Investigate e-Commerce solutions to allow donors to make safe and secure online donations to the Library with credit cards. Implement if appropriate and feasible.
3. Develop a program or process for mass e-mail campaigns to notify library users and supporters of special programs and events.
4. Utilize hardware and software with in-house mass mailing device.

Technology Requirements:

1. Internet access.
2. Network Infrastructure.
3. Fundraising software.
4. e-Commerce software.

5. Hardware and software for mass e-mailing Servers.

Training Requirements:

1. Training for Development Office staff.

Other Resources Needed

1. Possible e-Commerce vendor relationship.

Project Budget: \$0.00

The Library will work closely with the Development Office to identify grant and partnering opportunities to secure funds and products to advance departmental needs.

BUFFALO AND ERIE COUNTY PUBLIC LIBRARY

TECHNOLOGY PLAN

2010 - 2013

PROJECT SUMMARY SHEET
DIGITIZATION

Target Date: 2010
& Ongoing

Project Number: 4

Library Goal: Strengthen information access and delivery.

Objective: Digitize special materials and unique items in the B&ECPL collection.

Activities:

1. Develop a plan for digital imaging projects (special materials, Local History File, Online Exhibits, fragile items) at the Central Library and other B&ECPL libraries.
2. Implement the B&ECPL's "Digitization Plan" to publicize and showcase library holdings.
3. Investigate online reproduction sales. Implement if appropriate and feasible.
4. Investigate collection management software for tracking unconventional use/loan of special collections materials (e.g. orchestral sets, programming kits). Acquire and implement if appropriate and feasible.

Technology Requirements:

1. Internet access.
2. High-end digital scanners, printers and related equipment.
3. High-end workstation(s) with appropriate software.
4. Access to appropriate digital content management software.

5. Possible software to support online sales.
6. Adequate and secure storage device(s).
7. Adequate bandwidth.

Training Requirements:

1. Staff training in use of equipment and software.

Other Resources Needed:

1. Possible vendor relationship for online sales.
2. Collaboration with regional hosting services.

Project Budget: \$0.00

The Library will continue to actively solicit grant funds and partnering opportunities to advance the Library's digitization initiatives.

BUFFALO AND ERIE COUNTY PUBLIC LIBRARY

TECHNOLOGY PLAN

2010 - 2013

PROJECT SUMMARY SHEET
E-BRANCH

**Target Date: 2010
& Ongoing**

Project Number: 5

Library Goal: Strengthen information access and delivery.

Objective: Enhance services provided by e-Branch.

Activities:

1. Maintain collaborative 24/7 reference service.
2. Investigate alternatives to supplement current e-mail reference service.
3. Enhance electronic information delivery (e.g. scanning, e-delivery).
4. Evaluate alternative real time communication tools (e.g. Texting, live chat, instant messaging).
5. Investigate the use of knowledge management database software to build an automated centralized staff knowledge-base.
6. Implement appropriate products or services.

Technology Requirements:

1. Access to the Internet.
2. Appropriate hardware and software to provide 24/7 reference service.
3. Hardware and/or software to support real time communication.
4. Knowledge base software.

Training Requirements:

1. Staff training in use of software for real time on-line reference service.
2. Staff training in use of alternate communication tools and devices.
3. Knowledge management database software.

Other Resources Needed:

1. Collaboration with 24/7 reference service provider.

Project Budget:

\$16,500

Cost for 24/7 collaboration fees (first year/2010 paid from Centralized Selection funding).

BUFFALO AND ERIE COUNTY PUBLIC LIBRARY

TECHNOLOGY PLAN

2010 - 2013

PROJECT SUMMARY SHEET
E-COMMUNICATION

Target Date: 2010

Project Number: 6

Library Goal: Evaluate and improve the B&ECPL's operations and services.

Develop and train a skilled staff.

Promote the use of library resources and services.

Objective: Improve the B&ECPL's electronic communications mechanisms.

Activities:

1. Maintain state-of-the-art e-mail system (e.g. Exchange 2007).
2. Maintain anti-spam filter for Microsoft Exchange 2007.
3. Acquire, implement and maintain e-mail archiving device.
4. Evaluate the use of alternative electronic communication tools (e.g. Blogs, wikis, Instant Messaging, Skype, etc.).
5. Implement and promote new and emerging electronic communication alternatives.
6. Evaluate, implement and promote social networking tools to enhance communication and productivity (e.g. Ning, Facebook, Twitter, etc.).
7. Implement digital display monitors in public areas when appropriate and feasible.

Technology Requirements:

1. Adequate communications server.
2. Messaging and collaboration software.
3. Anti-Spam and anti-virus software.
4. E-Mail archiving device.
5. Back-up hardware and software.
6. Possible hardware and/or software to support alternate electronic communications.

Training Requirements:

1. Technical Training - Information Technology Staff.
2. Appropriate staff training.

Other Resources Needed:

Project Budget:

\$ 107,083.78

BUFFALO AND ERIE COUNTY PUBLIC LIBRARY

TECHNOLOGY PLAN

2010 - 2013

PROJECT SUMMARY SHEET
E-MATERIALS (CONTENT)

Target Date: 2010
& Ongoing

Project Number: 7

Library Goal:

Maintain and enhance state-of-the-art resources for public and staff.

Strengthen information access and delivery.

Objective:

Expand and strengthen electronic collections.

Activities:

1. Monitor developments in standards and use of alternate electronic formats (e.g. e-Books, downloadables, and digital content).
2. Examine commercial services providing electronic resources for libraries.
3. Maintain and enhance downloadable services (e.g. OverDrive, Inc.)
4. Evaluate the viability of other electronic content formats for public library use (e.g. e-books, e-music).
5. Integrate appropriate electronic resources in the library collection when feasible.
6. Expand library-generated content (e.g. podcasts, streaming video).
7. Evaluate age-appropriate gaming software for public library applications. Implement at select locations when feasible.

Technology Requirements:

1. Internet access.
2. Network infrastructure.
3. Appropriate hardware devices for testing.
4. Podcast hardware and software.
5. Appropriate software.

Training Requirements:

1. Staff training in use of new resources.
2. Staff training in use of any required device.
3. Relevant public training.

Other Resources Needed:

1. Vendor partnership.

Project Budget:

\$36,000

Cost is for OverDrive fees.

Any purchase of actual e-Materials (e.g., downloadable audio books) will be included in the normal Acquisitions budget and will not result in an increase in the total.

BUFFALO AND ERIE COUNTY PUBLIC LIBRARY

TECHNOLOGY PLAN

2010 - 2013

PROJECT SUMMARY SHEET
E-MATERIALS (DEVICES)

Target Date: 2010
& Ongoing

Project Number: 8

Library Goal:

Maintain and enhance state-of-the-art resources for public and staff.

Strengthen information access and delivery.

Objective:

Integrate handheld and/or mobile devices with Library operations and services.

Activities:

1. Monitor existing and emerging mobile technologies and developments (e.g. handheld hardware devices, lanyard-based devices).
2. Evaluate products for library applications.
3. Acquire and integrate appropriate devices to enhance staff productivity and public access when appropriate and feasible.

Technology Requirements:

1. Internet access.
2. Appropriate hardware devices for testing.

Training Requirements:

1. Staff training in use of new resources.
2. Staff training in use of any required device.
3. Relevant public training.

Other Resources Needed: N/A

Project Budget: \$0.00

The Library maintains a Dedicated Fund Balance for Equipment & Technology Replacement. These funds are in reserve to address technology initiatives that are not funded in the operating budget but are identified as major and/or priority needs. The 2010 Board-approved Dedicated Fund Balance for these purposes is approximately \$680,000.

BUFFALO AND ERIE COUNTY PUBLIC LIBRARY

TECHNOLOGY PLAN

2010 - 2013

PROJECT SUMMARY SHEET
HUMAN RESOURCES

Target Date: 2010

Project Number: 9

Library Goal:

Evaluate and improve the B&ECPL's operations and services.

Maintain and enhance state-of-the-art resources for public and staff.

Strengthen information access and delivery.

Objective:

Provide electronic access to specified personnel documents.

Provide electronic time-keeping.

Activities:

1. Investigate electronic alternatives (e.g. scanning) to archive, maintain, and/or access specified paper format personnel records (both current and historical).
2. Implement if appropriate and feasible.
3. Investigate alternatives for electronic staff time-keeping and time-logging. Implement if appropriate and feasible.

Technology Requirements:

1. Possible Internet.
2. Possible network infrastructure.
3. Required hardware.
4. Required Software.

Training Requirements:

1. Staff training.

Other Resources Needed:

1. Possible outside vendor consultant.

Project Budget:

\$0.00

The Library will continue to actively solicit grant funds and partnering opportunities to supplement resources dedicated in the B&ECPL operating budget. The Library maintains a Dedicated Fund Balance for Equipment & Technology Replacement. These funds are in reserve to address technology initiatives that are not funded in the operating budget but are identified as major and/or priority needs. The 2010 Board-approved Dedicated Fund Balance for these purposes is approximately \$680,000.

BUFFALO AND ERIE COUNTY PUBLIC LIBRARY

TECHNOLOGY PLAN

2010 - 2013

PROJECT SUMMARY SHEET
INTEGRATED LIBRARY SYSTEM (ILS)

Target Date: 2010
& Ongoing

Project Number: 10

Library Goal:

Evaluate and improve the B&ECPL's operations and services.

Maintain and enhance state-of-the-art resources for public and staff.

Strengthen information access and delivery.

Objective:

Provide a state-of-the-art, stable and responsive integrated library system.

Activities:

1. Maintain and upgrade (hardware and software) as necessary, for Integrated Library System (e.g. SirsiDynix ILS).
2. Insure integrity and relevancy of user and bibliographic data.
3. Produce required reports through statistical data and analysis.
4. Investigate alternate electronic methods (e.g. text-messaging) for delivery of Library Notices generated from the ILS (e.g. Overdue, Hold). Implement if appropriate and feasible.
5. Explore methods for regular electronic delivery of B&ECPL announcements (e.g. newsletters, advocacy information) to a large numbers of

cardholders who have “opted-in” to receive Library notifications.

6. Maintain and enhance public access catalog. Implement new features if appropriate and feasible.
 - a. Implement new catalog interface (e.g. SirsiDynix e-Library).
 - b. Investigate and implement, when feasible, automated link checkers and HTML validation tools for public access catalog.
 - c. Investigate and implement appropriate social networking and user-experience features (e.g. book reviews, book clubs, tagging).
 - d. Evaluate development of web interface for mobile devices. Implement when feasible.
 - e. Investigate faceted searching options. Implement alternate interface if appropriate and feasible.
 - f. Investigate appropriate web server software alternatives (e.g. open source Content Management Software). Implement if appropriate and feasible.
 - i. Investigate options to merge main website with the catalog.
7. Prepare, issue, evaluate and award RFP for automated Authority Control.
8. Implement and maintain ongoing automated Authority Control.
9. Investigate alternate hosting options (e.g. Saas) and implement if appropriate and feasible.
10. Investigate and evaluate migration of current ILS to open source ILS. Implement if appropriate and feasible.
11. Investigate additional electronic payment or cardholder deposit account options (e.g. AAM – Authentication and Accounting) and implement if appropriate and feasible.

12. Investigate an electronic library card application feature. Implement if appropriate and feasible.
13. Investigate cardholder initiated PIN changes when they do not remember PIN. Implement if appropriate and feasible.
14. Investigate scanning options for existing and future library card applications for on-line staff retrieval. Implement if appropriate and feasible.
15. Investigate expanded self-service operations for select libraries (including automated materials vending).
16. Investigate and evaluate SirsiDynix proprietary Content Management System (i.e. Enterprise).

Technology Requirements:

1. Internet access.
2. Adequate Network infrastructure.
3. Production and test servers.
4. Backup device and associated backup media.
5. ILS and public access catalog, including SIP2.
6. Hardware and software supporting Director's Station.
7. Link-checking software.

Training Requirements:

1. ILS training for core Information Technology staff.
2. Staff training.

Other Resources Needed:

Project Budget:

\$ 1,309,949.65

BUFFALO AND ERIE COUNTY PUBLIC LIBRARY

TECHNOLOGY PLAN

2010 - 2013

PROJECT SUMMARY SHEET
INTERLIBRARY LOAN

Target Date: 2010

Project Number: 11

Library Goal: Strengthen information access and delivery.

Objective: Enhance resource sharing for B&ECPL patrons through interlibrary loan opportunities.

Activities:

1. Maintain and promote the use of Interlibrary Loan Management software. (e.g., OCLC ILLiad).
2. Promote electronic document delivery.
3. Upgrade hardware and software hosting ILLiad software.

Technology Requirements:

1. ILLiad Software.
2. Adequate Server (anticipate end of life replacement).
3. Adequate client(s).

Training Requirements:

1. Public Training - ILL and electronic document delivery services.

Other Resources Needed: N/A

Project Budget:

\$0.00

Current Costs are funded through OCLC allocations.

PROJECT SUMMARY SHEET
INTRANET

**Target Date: 2010
& Ongoing**

Project Number: 12

Library Goals:

Evaluate and improve the B&ECPL's operation and services.

Develop and train a skilled staff.

Objectives:

Improve the B&ECPL's internal communications mechanisms. Increase staff access to computer technology.

Activities:

1. Develop a new Intranet website with user-friendly and informative interface.
2. Insure up-to-date content.
3. Streamline forms procedures employing intelligent documents which provide fill-able forms with electronic authentication and signature. Provide the ability to save, organize, share and submit the document electronically.
4. Develop implementation of intelligent documents into Active Directory.

Technology Requirements:

1. Adequate Web Server.
2. Active Directory.
3. Intelligent Document Delivery Software.
4. Local and remote access to the Intranet.

Training Requirements:

1. Staff training.

Other Resources Needed:

1. Adequate appropriate level staff.

2010 - 2013

PROJECT SUMMARY SHEET
LIBRARY CONSTRUCTION

**Target Date: 2010
& Ongoing**

Project Number: 13

Library Goal:

Evaluate and improve the B&ECPL's operations and services.

Strengthen information access and delivery.

Secure the public and private funding necessary to fulfill the Library's mission.

Objective:

Provide technical support for design, development and integration of the network infrastructure and communications in all library construction projects.

Activities:

1. Insure design, cabling and LAN/WAN installations are appropriately integrated into the Library's network for all B&ECPL building renovation projects or any new construction.
2. Insure move of existing or implementation of new telephone and data communications services
3. Install PCs and all related peripherals.

Technology Requirements:

1. Access to the Internet.
2. Network infrastructure.
3. Appropriate Internet and communications cabling.

4. Telecommunications equipment.
5. Network equipment (e.g. routers, switches).
6. Server and workstation hardware as well as associated peripherals.

Training Requirements:

1. Network equipment (e.g. routers, switches).

Other Resources Needed:

1. Consultation with architect, building contractor, data communications provider and any other appropriate consultant or vendor.

Project Budget:

\$ 45,000 (*contingent upon City of Buffalo funding)
Niagara Library Computer Lab

\$0.00 To be determined – based upon architectural design and funding sources for other projects

BUFFALO AND ERIE COUNTY PUBLIC LIBRARY

TECHNOLOGY PLAN

2010 - 2013

PROJECT SUMMARY SHEET
NETWORK SUPPORT

**Target Date: 2010
& Ongoing**

Project Number: 14

Library Goals:

Evaluate and improve the B&ECPL's operations and services.

Maintain and enhance state-of-the-art resources for public and staff.

Develop and train a skilled staff.

Secure the public and private funding necessary to fulfill the Library's mission.

Objective:

Provide a robust, secure, high-performance network for all B&ECPL libraries, supporting public and staff needs.

Activities:

1. Insure full implementation of newly awarded contract for the Wide Area Network (WAN) linking the 36 branch and town libraries to the Central Library using fiber optic cable and future proof technology.
2. Establish a migration path to insure optimum bandwidth dependent upon usage.
3. Upgrade bandwidth to Internet as needed from 100 MB to the maximum required to meet the needs and demands of the library users and the staff of the B&ECPL.
4. Upgrade firewall software and hardware.

5. Maintain and possibly upgrade VPN (Virtual Private Network) for secure access to Library's network.
6. Maintain operating system of all servers. Upgrade hardware and operating software as necessary.
7. Maintain and update Internet-threat and network security software as needed.
8. Replace, as necessary, Cisco routers and switches that have reached "end of life."
9. Review available and required network monitoring and troubleshooting tools. Obtain and install as needed.
10. Evaluate Help Desk System software alternatives.
11. Replace Help Desk System software.
12. Update Computer Operations Manual and Information Technology Staff Problem Resolution Guide.
13. Strengthen Information Technology Staff's ability to maintain and enhance technology for the public and staff of the B&ECPL.
14. Investigate log analyzing hardware and software to efficiently retrieve required user history on public PCs from massive data logs (e.g. individual log-on information, Internet usage history).

Technology Requirements:

1. Internet access.
2. Firewall hardware and software.
3. Internet threat-detection software (anti-virus and anti-spam).
4. VPN.
5. Routers at all libraries.
6. Switches.
7. Network monitoring software.
8. Help Desk System (replacement software).

9. Appropriate log analyzing hardware and software to data-mine massive PC-use and Internet-use log files.

Training Requirements:

1. Technical training for appropriate Information Technology staff.

Other Resources Needed:

1. Assistance from Erie County Purchasing and D.I.S.S. in RFP and bid process.
2. Electronic communications network between the B&ECPL and the County of Erie to access website and specific shared applications (e.g. SAP software)
3. Consulting.
4. Contract with telecommunications service provider.

Project Budget:

\$ 4,132,590.70

BUFFALO AND ERIE COUNTY PUBLIC LIBRARY

TECHNOLOGY PLAN

2010 - 2013

PROJECT SUMMARY SHEET
OUTREACH

Target Date: 2009

Project Number: 15

Library Goals:

Promote the use of library resources and services.

Evaluate and improve the B&ECPL's operations and services.

Strengthen information access and delivery.

Secure the public and private funding necessary to fulfill the Library's mission.

Objective:

Optimize library services to the underserved residents of Buffalo and Erie County Public Library.

Activities:

1. Revisit outreach options to serve target populations.
2. Investigate the use of "Home Delivery" of library resources.
3. Investigate patron access to library catalog, web site and possibly, the Internet, at non-library locations (e.g. kiosks in community centers, stores or mobile vehicles).
4. Promote literacy initiatives.

Technology Requirements:

1. Internet access.
2. VPN (Virtual Private Network).
3. Software to manage and support Home Delivery service.

Training Requirements:

1. Staff training for Home Delivery service.
2. Public awareness training.

Other Resources Needed: N/A

Project Budget:

\$0.00

The Library will continue to actively solicit grant funds and partnering opportunities to supplement resources dedicated in the B&ECPL operating budget.

BUFFALO AND ERIE COUNTY PUBLIC LIBRARY

TECHNOLOGY PLAN

2010 - 2013

PROJECT SUMMARY SHEET
PUBLIC ACCESS COMPUTING

**Target Date: 2010
& Ongoing**

Project Number: 16

Library Goal:

Evaluate and improve the B&ECPL's operations and services.

Maintain and enhance state-of-the-art resources for public and staff.

Strengthen information access and delivery.

Secure the public and private funding necessary to fulfill the Library's mission.

Objective:

Provide users at all library locations with an adequate number of public access computers suitably configured with current, age-appropriate applications and software as well as access to the Internet

Activities:

1. Provide sufficient numbers of current workstations to meet user needs (add, maintain and/or replace obsolete public PCs as needed).
2. Expand the number of laptops available for public in-library use.
3. Provide appropriate and user-friendly interface for public PCs.

4. Provide sufficient numbers of printers, scanners, and other appropriate peripherals to meet user needs. Replace as needed.
5. Maintain and upgrade user self-authentication software for public access computer sign-up.
6. Investigate remote user sign-up and reservations for public PCs. Implement if appropriate.
7. Investigate advance public PC reservations. Implement if appropriate.
8. Investigate and establish a real time reservation system for training classes and advanced public PC booking.
9. Investigate printing option for individual's using personal laptop computers and implement solution, if appropriate.
10. Maintain and upgrade mandatory filtering hardware and software to insure CIPA compliance.
11. Maintain self-serve, user-friendly printer cost recovery at all public workstations in the Central Library. Investigate printer cost recovery options for other library locations and implement if feasible.
12. Evaluate current software and provide regularly scheduled updates to existing computer workstations to optimize performance as follows:
 - a. Current operating system, browser and all required "plug-in" programs.
 - b. Applications (e.g. Microsoft Office programs, Mavis Beacon, Resume Maker).
 - c. Educational software (e.g. Clifford, Barney, etc.)

13. Replace or additional applications and/or software when appropriate and feasible.
14. Upgrade and expand adaptive technology and assistive devices:
 - a. Evaluate current special needs accommodations, devices and software to insure relevancy. Replace or add new products when appropriate and feasible.
 - b. Upgrade, as required, and expand usage of software technology specifically installed for the vision impaired (e.g., JAWS, ZoomText).
 - c. Upgrade, as required, and expand usage of software technology for the learning disabled (e.g. J-Say, Kurzweil, Radio Receivers, etc.).
15. Provide specialized "centers" at selected libraries for various patron populations (e.g. Video Editing; Desktop Publishing; Family Computer Areas).
16. Investigate Authentication and Accounting Module (AAM) features and implement, if appropriate.
17. Evaluate expanded public fax services at selected libraries and implement if appropriate and feasible.
18. Establish additional age-appropriate gaming stations at select libraries.
19. Investigate non-English language "public access model" with appropriate software.
20. Investigate implementation of download stations or kiosks for digital content at select libraries. Implement when feasible.

Technology Requirements:

1. Internet access.

2. Network Infrastructure.
3. Uninterruptable power supplies.
4. Application packaging software.
5. Active Directory.
6. Computers and Servers.
7. Filtering software
8. Patron Self Authentication software.
9. Printer Cost Recovery software.
10. Application software.
11. Printers, scanners and peripherals.
12. Hardware and software for assistive technology.
13. Wireless Access Point devices.
14. Anti-virus and anti-spam software.
15. Back-up hardware and software.

Training Requirements:

1. Information Technology staff training for new/updated hardware and software.
2. Staff and public training in the use of new hardware and software programs.

Other Resources Needed:

1. Out-sourced technology support.
2. Consulting.

Project Budget:

\$ 53,734.73

The Library will continue to actively solicit grant funds and partnering opportunities to supplement resources dedicated in the B&ECPL operating budget. The Library maintains a Dedicated Fund Balance for Equipment & Technology Replacement. These funds are in reserve to address technology initiatives that are not funded in the operating budget but are identified as major and/or priority needs. The 2010 Board-approved Dedicated Fund Balance for these purposes is approximately \$680, 000.00.

BUFFALO AND ERIE COUNTY PUBLIC LIBRARY

TECHNOLOGY PLAN

2010 - 2013

PROJECT SUMMARY SHEET
RFID

Target Date: 2008

Project Number: 17

Library Goal: Evaluate and improve the B&ECPL's operations and services.

Maintain and enhance state-of-the-art resources for public and staff.

Secure the public and private funding necessary to fulfill the Library's mission.

Objective: Expand RFID technology throughout the B&ECPL System to improve public service and increase staff productivity.

Activities:

1. Implement RFID technology at the Central Library and Amherst libraries.
2. Implement RFID technology at all libraries receiving RFID funding through New York State Construction Grants.
3. Develop implementation plan for B&ECPL libraries not already using or scheduled to implement RFID technology.
4. Implement at remaining B&ECPL libraries when funds become available.
5. Prepare, evaluate and award RFP for automated materials handling system (AMH) for Central Library. Implement when appropriate.

6. Evaluate purchase of additional self-service stations at specific libraries and implement when feasible.
7. Investigate incorporating automated return technology in B&ECPL libraries and implement if appropriate when feasible.
8. Evaluate enhanced media security options (e.g. dispensing devices, cases, gates and structural building alterations) and implement if appropriate and feasible.
9. Investigate RFID library card technology. Implement when appropriate and feasible.

Technology Requirements:

1. Internet access
2. SIP connection to the ILS (e.g. SirsiDynix WorkFlows).
3. Data and electrical cabling.
4. RFID hardware and software.
5. Specialized equipment (e.g. automated materials handling equipment, automated return technology, dispensing devices, etc.)

Training Requirements:

1. Information Technology staff hardware and software training.
2. Staff hardware and software training.
3. Public training.

Other Resources Needed: N/A

Project Budget:

\$ 1,333,000.31

The Library will continue to actively solicit grant funds and partnering opportunities to supplement resources dedicated in the B&ECPL operating budget.

BUFFALO AND ERIE COUNTY PUBLIC LIBRARY

TECHNOLOGY PLAN

2010 - 2013

PROJECT SUMMARY SHEET
STAFF COMPUTING

**Target Date: 2010
& Ongoing**

Project Number: 18

Library Goal:

Maintain and enhance state-of-the-art resources for public and staff.

Develop and train a skilled staff.

Secure the public and private funding necessary to fulfill the Library's mission.

Objective:

Provide appropriate staff access to computer technology.

Activities:

1. Repair and maintain computer hardware and associated peripherals.
2. Replace and/or add additional staff workstations as needed.
3. Maintain and upgrade appropriate filtering software to insure CIPA compliance.
4. Upgrade or add current applications, software, and plug-ins when appropriate (e.g., MS Office, Internet browser, Adobe Acrobat).
5. Upgrade ILS client software (e.g. SirsiDynix Workflows Java client).
6. Evaluate new products, applications and software and implement when appropriate and feasible.

Technology Requirements:

1. Internet access.

2. Network infrastructure.
3. Required servers.
4. Application packaging software.
5. Active Directory.
6. Computer hardware and associated peripherals.
7. Filtering software.
8. Communication and Collaboration software.
9. Applications and programs.

Training Requirements:

1. Information Technology staff new hardware and software training.
2. Staff hardware, application and software training.

Other Resources Needed:

1. Out-sourced technology support.
2. Consulting.

Project Budget:

\$ 0.00

All current costs are included in the Network Support project budget.

The Library maintains a Dedicated Fund Balance for Equipment & Technology Replacement. These funds are in reserve to address technology initiatives that are not funded in the operating budget but are identified as major and/or priority needs. The 2010 Board-approved Dedicated Fund Balance for these purposes is approximately \$680, 000.00.

BUFFALO AND ERIE COUNTY PUBLIC LIBRARY

TECHNOLOGY PLAN

2010 - 2013

PROJECT SUMMARY SHEET
TELEPHONE SYSTEM

Target Date: 2010

Project Number: 19

Library Goal:

Evaluate and improve the B&ECPL's operations and services.

Maintain and enhance state-of-the-art resources for public and staff.

Objective:

Evaluate and if appropriate and feasible replace aging, obsolete telephone system with a state-of-the-art VoIP Telephony System.

Activities:

1. Investigate VoIP telephony services and identify solution which best meets the needs of the Buffalo and Erie County Public Library System.
2. Develop definition of requirements.
3. If appropriate and feasible, develop, evaluate and award RFP contract.
4. Develop complete implementation plan.
5. If feasible, implement cutover.
6. Develop Call Center protocol for e-Branch.
7. Investigate conference call options for use with all current phone systems and carriers.
8. If appropriate and feasible research and acquire any communications equipment required for in-library conferencing at selected locations.

Technology Requirements:

1. Internet access.
2. Network infrastructure.
3. New VoIP Telephone System and service.
4. New telephones.
5. Telephone conferencing equipment.

Training Requirements:

1. Training for Information Technology Staff.
2. Staff training.

Other Resources Needed:

1. Erie County
2. Voice and data provider (e.g. Verizon)
3. Telephone Numbers.
4. Consulting.

Project Budget:

\$ 99,767.52

BUFFALO AND ERIE COUNTY PUBLIC LIBRARY

TECHNOLOGY PLAN

2010 - 2013

PROJECT SUMMARY SHEET
TRAINING - PUBLIC

**Target Date: 2010
& Ongoing**

Project Number: 20

Library Goal:

Maintain and enhance state-of-the-art resources for public and staff.

Promote the use of library resources and services.

Objective:

Train the public to insure skills needed to optimally use the new technologies and electronic resources.

Activities:

1. Insure up-to-date stationary training labs and mobile CyberTrains.
 - a. Provide state-of-the-art computers and associated peripheral equipment. Replace hardware when needed and feasible.
 - b. Provide workstations equipped with assistive technologies. Acquire and implement appropriate devices and software into public workshops.
 - c. Provide appropriate state-of-the art software. Upgrade or replace when necessary and feasible.
 - d. Implement additional library training labs at select libraries when appropriate and feasible.

2. Expand and enhance training opportunities at all stationary training labs and increase use of mobile CyberTrains.
 - a. Insure adequate staff to address public training needs.
 - b. Expand number of staff trainers available to accompany mobile CyberTrains.
 - c. Provide practice sessions supervised by library staff.
 - d. Provide open lab sessions with one-on-one staff assistance available.
 - e. Provide computer literacy programs for at-risk individuals or those lacking home, work or school access to computers and/or the Internet.
 - f. Enhance and expand formal training sessions (e.g. Microsoft Office, Internet Basics, and Resume Maker).
 - g. Expand library-related training sessions (e.g. catalog searching, database searching, downloading).
 - h. Develop additional specialized programs for targeted audiences such as the business community, job seekers, children and young adults.
 - i. Offer specialized training workshops conducted by experts in the community.
3. Explore and implement alternative training options. Acquire appropriate equipment and supporting software.
 - a. Interactive on-line tutorials.
 - b. Distance learning.
 - c. Interactive whiteboard technology (e.g. SMART board).
 - d. Videoconferencing.
 - e. Simulcasts.

Technology Requirements:

1. Internet access.
2. Wireless Access Point.
3. Network infrastructure.
4. State-of-the-art hardware.
5. Up to date and appropriate application software.
6. Videoconferencing equipment and telecommunications facilities.
7. Interactive whiteboards.
8. Simulcast equipment and software.
9. Software to support alternative training opportunities.

Training Requirements:

1. Staff training.
2. Public training.

Other Resources Needed:

1. Additional staff.

Project Budget:

\$ 221,651.63

(Includes Anticipated 2010-2012 LSTA Grant
\$36,724.00)

The Library will continue to actively solicit grant funds and partnering opportunities to supplement resources dedicated in the B&ECPL operating budget. The Library maintains a Dedicated Fund Balance for Equipment & Technology Replacement. These funds are in reserve to address technology initiatives that are not funded in the operating budget but are identified as major and/or priority needs. The 2010 Board-approved Dedicated Fund Balance for these purposes is approximately \$680,000.

BUFFALO AND ERIE COUNTY PUBLIC LIBRARY

TECHNOLOGY PLAN

2010 - 2013

PROJECT SUMMARY SHEET
TRAINING -STAFF

**Target Date: 2010
& Ongoing**

Project Number: 21

Library Goal:

Maintain and enhance state-of-the-art resources for public and staff.

Develop and train a skilled staff.

Objective:

Train staff to insure skills needed to optimally use the new technologies and electronic resources to maximize staff productivity and respond to public needs.

Activities:

1. Maximize training opportunities for all staff.
2. Insure adequate staff training to meet or exceed the minimum skill levels needed to perform job requirements.
3. Provide specialized training when appropriate.
4. Utilize Library 2.0 and beyond services and resources.
5. Develop and implement a plan to insure basic Library 2.0 skill sets as appropriate (e.g. The 23 Things - Learning 2.0 project).
6. Explore alternatives to traditional training and services as follows:
 - a. Interactive on-line tutorials.
 - b. Distance learning.
 - c. Videoconferencing.

- d. Simulcasting.
- e. Interactive whiteboard technology (e.g. SMART board).

Technology Requirements:

1. Internet access.
2. Wireless Access Point.
3. Network infrastructure.
4. State-of-the-art hardware.
5. Up to date and appropriate application software.
6. Videoconferencing equipment and telecommunications facilities.
7. Interactive whiteboards.
8. Software to support alternative training opportunities.

Training Requirements

1. Staff training.

Other Resources Needed: N/A

Project Budget:

\$ 52,739.22

In addition to in-house training, members of the B&ECPL staff will be encouraged to participate in conferences conducted off-site by other professional organizations. The Library will continue to actively solicit grant funds and partnering opportunities to supplement resources dedicated in the B&ECPL operating budget. The Board-approved 2010 Dedicated Fund Balance includes approximately \$680,000 for Equipment & Technology Replacement. These funds are in reserve to address technology initiatives that are not funded in the operating budget but are identified as major and/or priority needs.

BUFFALO AND ERIE COUNTY PUBLIC LIBRARY

TECHNOLOGY PLAN

2010 - 2013

PROJECT SUMMARY SHEET
WEB SITES

Target Date: 2010
& Ongoing

Project Number: 22

Library Goal:

Evaluate and improve the B&ECPL's operations and services.

Maintain and enhance state-of-the-art resources for public and staff.

Strengthen information access and delivery.

Develop and train a skilled staff.

Promote the use of library resources and services.

Objective:

Enhance the B&ECPL websites to serve as information portals and additional customer service points.

Activities:

1. Rebuild and Redesign web site.
2. Assess user-experience, conduct usability testing of new web site design.
3. Maintain universal design.
4. Continually evaluate, develop and insure accuracy of website content.
5. Investigate and implement, when feasible, automated link checkers and HTML validation tools.
6. Continue to promote library events and services.

7. Add appropriate specialized collections and content (e.g. digitization projects, online exhibits).
8. Explore and enhance “digital branch” features using appropriate interactive social networking.
9. Investigate e-Commerce alternatives to support Library initiatives (e.g. fundraising, sales, etc.). Implement if appropriate and feasible.
10. Investigate distributed content management system (CMS) for libraries and departments for both internal and external communications. Implement if appropriate and feasible.
11. Investigate and evaluate integration of public access catalog and website to enhance end-user experience.
12. Explore the creation of customized/personalized interfaces.

Technology Requirements:

1. Internet access.
2. Network infrastructure.
3. Web site development hardware and software.
4. Web site development applications
5. Link-checking software.
6. Possible software supporting e-Commerce.

Training Requirements:

1. Technical training for web master.
2. Staff training.

Other Resources Needed:

1. Possible vendor relationship for e-Commerce features.

Project Budget:

\$ 192,408.30

BUFFALO AND ERIE COUNTY PUBLIC LIBRARY

TECHNOLOGY PLAN

2010 - 2013

PROJECT SUMMARY SHEET
WIRELESS

Target Date: 2010

Project Number: 23

Library Goal:

Evaluate and improve the B&ECPL's operations and services.

Maintain and enhance state-of-the-art resources for public and staff.

Strengthen information access and delivery.

Develop and train skilled staff.

Promote the use of library resources and services.

Objective:

Expand the use of wireless technologies for staff and public.

Activities:

1. Improve wireless Internet access to all B&ECPL facilities; including replacing wireless access points (WAP) as needed.
2. Expand wireless access capacity as needed.
3. Investigate, and possibly implement, solutions to printing issues.
4. Evaluate development of web interface for mobile devices. Implement when appropriate and feasible.

5. Examine usefulness and related productivity gains for staff to use PDAs or other handheld devices for assisting library users or collecting data. Implement when appropriate and feasible.
6. Investigate use of wireless for temporary and permanent cabling requirements within select libraries and departments. Implement when feasible.

Technology Requirements:

1. Internet access.
2. Network infrastructure.
3. Wireless access points.
4. Required peripherals (e.g. PDAs, other handheld devices)
5. Web development tools.

Training Requirements:

1. Information Technology staff training.
2. Staff training.
3. Public training.

Other Resources Needed: N/A

Project Budget:

\$ 12,000.00

Buffalo & Erie County Public Library Technology Plan
Summary

Assessment of Telecommunications Services, Hardware, Software and other Services

Library Name **Boston**

Telecommunications	Current	Projected		
	2010	2011	2012	2013
WAN Circuit (Upgrade from 1 T-1 to 5Mb 7/1/2010)	5 Mb	5 Mb	5 Mb	5 Mb
LAN	Yes	Yes	Yes	Yes
Telephone Lines	1	1	1	1
Fax Line	1	1	1	1
Cabling	No			
Wireless Access for Public	Yes	Yes	Yes	Yes

Network	Current	Projected		
	2010	2011	2012	2013
Router (Fiber Eth. VLAN upgrade on 7/1/2010 eliminates router use)	Cisco 2620			
Switch	1	1	1	1
Fax Machine	1			
Wireless Access Point	1	1	1	1

Hardware	Current	Projected		
	2010	2011	2012	2013
Servers	1	1	1	1
Public Access Workstations	10			
Staff Workstations	3			
Black & White Laser Printers	1			
Color Laser Printers	1	1	1	1
Scanners	1	1	1	1
UPS	1	1	1	1

Software	Current	Projected		
	2010	2011	2012	2013
Operating System (e.g. Windows 2000)	Windows XP	Windows 7	Windows 7	Windows 7
Productivity (e.g. Microsoft Office)	Office 2007	Office 2007	Office 2007	Office 2007
Educational (e.g. ResumeMaker)	Miscellaneous	Miscellaneous	Miscellaneous	Miscellaneous
Technical Center (e.g. Desktop publishing)	---			
e-Mail (e.g. Eudora, Outlook)	Outlook 2007	Outlook 2007	Outlook 2007	Outlook 2007

RFID	Current	Projected		
	2010	2011	2012	2013
RFID Antenna Pad				
RFID Self-Check Station				
RFID Gates Single				
RFID Gates Dual				
Library PDA

Buffalo & Erie County Public Library Technology Plan
Summary

Assessment of Telecommunications Services, Hardware, Software and other Services

Library Name Clearfield

Telecommunications	Current	Projected		
	2010	2011	2012	2013
WAN Circuit (Upgrade from 1 T-1 to 10Mb 7/1/2010)	10 Mb	10 Mb	10 Mb	10 Mb
LAN	Yes	Yes	Yes	Yes
Telephone Lines	2	2	2	2
Fax Line	1	1	1	1
Cabling	No			
Wireless Access for Public	Yes	Yes	Yes	Yes

Network	Current	Projected		
	2010	2011	2012	2013
Router (Fiber Eth. VLAN upgrade on 7/1/2010 eliminates router use)	Cisco 2620			
Switch	2	2	2	2
Fax Machine	1			
Wireless Access Point	1	1	1	1

Hardware	Current	Projected		
	2010	2011	2012	2013
Servers	1	1	1	1
Public Access Workstations	17			
Staff Workstations	9			
Black & White Laser Printers	1			
Color Laser Printers	1	1	1	1
Scanners	1	1	1	1
UPS	1	1	1	1

Software	Current	Projected		
	2010	2011	2012	2013
Operating System (e.g. Windows 2000)	Windows XP	Windows 7	Windows 7	Windows 7
Productivity (e.g. Microsoft Office)	Office 2007	Office 2007	Office 2007	Office 2007
Educational (e.g. ResumeMaker)	Miscellaneous	Miscellaneous	Miscellaneous	Miscellaneous
Technical Center (e.g. Desktop publishing)	---			
e-Mail (e.g. Eudora, Outlook)	Outlook 2007	Outlook 2007	Outlook 2007	Outlook 2007

RFID	Current	Projected		
	2010	2011	2012	2013
RFID Antenna Pad				
RFID Self-Check Station				
RFID Gates Single				
RFID Gates Dual				
Library PDA

Buffalo & Erie County Public Library Technology Plan
Summary

Assessment of Telecommunications Services, Hardware, Software and other Services

Library Name Clarence

Telecommunications	Current	Projected		
	2010	2011	2012	2013
WAN Circuit (Upgrade from 1 T-1 to 5Mb 7/1/2010)	5 Mb	10 Mb	10 Mb	10 Mb
LAN	Yes	Yes	Yes	Yes
Telephone Lines	2	2	2	2
Fax Line	1	1	1	1
Cabling	No			
Wireless Access for Public	Yes	Yes	Yes	Yes

Network	Current	Projected		
	2010	2011	2012	2013
Router (Fiber Eth. VLAN upgrade on 7/1/2010 eliminates router use)	Cisco 2620			
Switch	1	1	1	1
Fax Machine	1			
Wireless Access Point	1	1	1	1

Hardware	Current	Projected		
	2010	2011	2012	2013
Servers	1	1	1	1
Public Access Workstations	19			
Staff Workstations	11			
Black & White Laser Printers	1			
Color Laser Printers	1	1	1	1
Scanners	1	1	1	1
UPS	1	1	1	1

Software	Current	Projected		
	2010	2011	2012	2013
Operating System (e.g. Windows 2000)	Windows XP	Windows 7	Windows 7	Windows 7
Productivity (e.g. Microsoft Office)	Office 2007	Office 2007	Office 2007	Office 2007
Educational (e.g. ResumeMaker)	Miscellaneous	Miscellaneous	Miscellaneous	Miscellaneous
Technical Center (e.g. Desktop publishing)	---			
e-Mail (e.g. Eudora, Outlook)	Outlook 2007	Outlook 2007	Outlook 2007	Outlook 2007

RFID	Current	Projected		
	2010	2011	2012	2013
RFID Antenna Pad				
RFID Self-Check Station				
RFID Gates Single				
RFID Gates Dual

Buffalo & Erie County Public Library Technology Plan
Summary

Assessment of Telecommunications Services, Hardware, Software and other Services

Library Name Concord

Telecommunications	Current	Projected		
	2010	2011	2012	2013
WAN Circuit (Upgrade from 1 T-1 to 5Mb 7/1/2010)	5 Mb	10 Mb	10 Mb	10 Mb
LAN	Yes	Yes	Yes	Yes
Telephone Lines	1	1	1	1
Fax Line	1	1	1	1
Cabling	No			
Wireless Access for Public	Yes	Yes	Yes	Yes

Network	Current	Projected		
	2010	2011	2012	2013
Router (Fiber Eth. VLAN upgrade on 7/1/2010 eliminates router use)	Cisco 2620			
Switch	2	2	2	2
Fax Machine	1			
Wireless Access Point	1	1	1	1

Hardware	Current	Projected		
	2010	2011	2012	2013
Servers	1	1	1	1
Public Access Workstations	12			
Staff Workstations	5			
Black & White Laser Printers	1			
Color Laser Printers	1	1	1	1
Scanners	1	1	1	1
UPS	1	1	1	1

Software	Current	Projected		
	2010	2011	2012	2013
Operating System (e.g. Windows 2000)	Windows XP	Windows 7	Windows 7	Windows 7
Productivity (e.g. Microsoft Office)	Office 2007	Office 2007	Office 2007	Office 2007
Educational (e.g. ResumeMaker)	Miscellaneous	Miscellaneous	Miscellaneous	Miscellaneous
Technical Center (e.g. Desktop publishing)	---			
e-Mail (e.g. Eudora, Outlook)	Outlook 2007	Outlook 2007	Outlook 2007	Outlook 2007

RFID	Current	Projected		
	2010	2011	2012	2013
RFID Antenna Pad				
RFID Self-Check Station				
RFID Gates Single				
RFID Gates Dual				
Library PDA

Buffalo & Erie County Public Library Technology Plan
Summary

Assessment of Telecommunications Services, Hardware, Software and other Services

Library Name **Dudley**

Telecommunications	Current	Projected		
	2010	2011	2012	2013
WAN Circuit (Upgrade from 1 T-1 to 10Mb 7/1/2010)	10 Mb	10 Mb	10 Mb	10 Mb
LAN	Yes	Yes	Yes	Yes
Telephone Lines	2	2	2	2
Fax Line				
Cabling	No			
Wireless Access for Public	Yes	Yes	Yes	Yes

Network	Current	Projected		
	2010	2011	2012	2013
Router (Fiber Eth. VLAN upgrade on 7/1/2010 eliminates router use)	Cisco 2620			
Switch	2	2	2	2
Fax Machine	1			
Wireless Access Point	1	1	1	1

Hardware	Current	Projected		
	2010	2011	2012	2013
Servers	1	1	1	1
Public Access Workstations	24			
Staff Workstations	5			
Black & White Laser Printers	1			
Color Laser Printers	1	1	1	1
Scanners	1	1	1	1
UPS	1	1	1	1

Software	Current	Projected		
	2010	2011	2012	2013
Operating System (e.g. Windows 2000)	Windows XP	Windows 7	Windows 7	Windows 7
Productivity (e.g. Microsoft Office)	Office 2007	Office 2007	Office 2007	Office 2007
Educational (e.g. ResumeMaker)	Miscellaneous	Miscellaneous	Miscellaneous	Miscellaneous
Technical Center (e.g. Desktop publishing)	---			
e-Mail (e.g. Eudora, Outlook)	Outlook 2007	Outlook 2007	Outlook 2007	Outlook 2007

RFID	Current	Projected		
	2010	2011	2012	2013
RFID Antenna Pad	3	3	3	3
RFID Self-Check Station	1			
RFID Gates Single				
RFID Gates Dual	1	1	1	1
Library PDA	1	1	1	1

Buffalo & Erie County Public Library Technology Plan
Summary

Assessment of Telecommunications Services, Hardware, Software and other Services

Library Name Eden

Telecommunications	Current	Projected		
	2010	2011	2012	2013
WAN Circuit (Upgrade from 1 T-1 to 5Mb 7/1/2010)	5 Mb	5 Mb	10 Mb	10 Mb
LAN	Yes	Yes	Yes	Yes
Telephone Lines	1	1	1	1
Fax Line	1	1	1	1
Cabling	No			
Wireless Access for Public	Yes	Yes	Yes	Yes

Network	Current	Projected		
	2010	2011	2012	2013
Router (Fiber Eth. VLAN upgrade on 7/1/2010 eliminates router use)	Cisco 2620			
Switch	1	1	1	1
Fax Machine	1			
Wireless Access Point	1	1	1	1

Hardware	Current	Projected		
	2010	2011	2012	2013
Servers	1	1	1	1
Public Access Workstations	10			
Staff Workstations	4			
Black & White Laser Printers	1			
Color Laser Printers	1	1	1	1
Scanners	1	1	1	1
UPS	1	1	1	1

Software	Current	Projected		
	2010	2011	2012	2013
Operating System (e.g. Windows 2000)	Windows XP	Windows 7	Windows 7	Windows 7
Productivity (e.g. Microsoft Office)	Office 2007	Office 2007	Office 2007	Office 2007
Educational (e.g. ResumeMaker)	Miscellaneous	Miscellaneous	Miscellaneous	Miscellaneous
Technical Center (e.g. Desktop publishing)	---			
e-Mail (e.g. Eudora, Outlook)	Outlook 2007	Outlook 2007	Outlook 2007	Outlook 2007

RFID	Current	Projected		
	2010	2011	2012	2013
RFID Antenna Pad				
RFID Self-Check Station				
RFID Gates Single				
RFID Gates Dual				
Library PDA

Buffalo & Erie County Public Library Technology Plan
Summary

Assessment of Telecommunications Services, Hardware, Software and other Services

Library Name **Kenilworth**

Telecommunications	Current	Projected		
	2010	2011	2012	2013
WAN Circuit (Upgrade from 1 T-1 to 10Mb 7/1/2010)	10 Mb	10 Mb	10 Mb	10 Mb
LAN	Yes	Yes	Yes	Yes
Telephone Lines	1	1	1	1
Fax Line	1	1	1	1
Cabling	No			
Wireless Access for Public	Yes	Yes	Yes	Yes

Network	Current	Projected		
	2010	2011	2012	2013
Router (Fiber Eth. VLAN upgrade on 7/1/2010 eliminates router use)	Cisco 2620			
Switch	1	1	1	1
Fax Machine	1			
Wireless Access Point	1	1	1	1

Hardware	Current	Projected		
	2010	2011	2012	2013
Servers	1	1	1	1
Public Access Workstations	19			
Staff Workstations	4			
Black & White Laser Printers	1			
Color Laser Printers	1	1	1	1
Scanners	1	1	1	1
UPS	1	1	1	1

Software	Current	Projected		
	2010	2011	2012	2013
Operating System (e.g. Windows 2000)	Windows XP	Windows 7	Windows 7	Windows 7
Productivity (e.g. Microsoft Office)	Office 2007	Office 2007	Office 2007	Office 2007
Educational (e.g. ResumeMaker)	Miscellaneous	Miscellaneous	Miscellaneous	Miscellaneous
Technical Center (e.g. Desktop publishing)	---			
e-Mail (e.g. Eudora, Outlook)	Outlook 2007	Outlook 2007	Outlook 2007	Outlook 2007

RFID	Current	Projected		
	2010	2011	2012	2013
RFID Antenna Pad				
RFID Self-Check Station				
RFID Gates Single				
RFID Gates Dual				
Library PDA

Buffalo & Erie County Public Library Technology Plan
Summary

Assessment of Telecommunications Services, Hardware, Software and other Services

Library Name **Orchard Park**

Telecommunications	Current	Projected		
	2010	2011	2012	2013
WAN Circuit (Upgrade from 1 T-1 to 10Mb 7/1/2010)	10 Mb	10 Mb	10 Mb	10 Mb
LAN	Yes	Yes	Yes	Yes
Telephone Lines	1	1	1	1
Fax Line	1	1	1	1
Cabling	No			
Wireless Access for Public	Yes	Yes	Yes	Yes

Network	Current	Projected		
	2010	2011	2012	2013
Router (Fiber Eth. VLAN upgrade on 7/1/2010 eliminates router use)	Cisco 2620			
Switch	2	2	2	2
Fax Machine	1			
Wireless Access Point	1	1	1	1

Hardware	Current	Projected		
	2010	2011	2012	2013
Servers	1	1	1	1
Public Access Workstations	21			
Staff Workstations	11			
Black & White Laser Printers	1			
Color Laser Printers	1	1	1	1
Scanners	1	1	1	1
UPS	1	1	1	1

Software	Current	Projected		
	2010	2011	2012	2013
Operating System (e.g. Windows 2000)	Windows XP	Windows 7	Windows 7	Windows 7
Productivity (e.g. Microsoft Office)	Office 2007	Office 2007	Office 2007	Office 2007
Educational (e.g. ResumeMaker)	Miscellaneous	Miscellaneous	Miscellaneous	Miscellaneous
Technical Center (e.g. Desktop publishing)	---			
e-Mail (e.g. Eudora, Outlook)	Outlook 2007	Outlook 2007	Outlook 2007	Outlook 2007

RFID	Current	Projected		
	2010	2011	2012	2013
RFID Antenna Pad				
RFID Self-Check Station				
RFID Gates Single				
RFID Gates Dual				
Library PDA

Buffalo & Erie County Public Library Technology Plan
Summary

Assessment of Telecommunications Services, Hardware, Software and other Services

Library Name **Anna M. Reinstein Memorial Library**

Telecommunications	Current	Projected		
	2010	2011	2012	2013
WAN Circuit (Upgrade from 1 T-1 to 10Mb 7/1/2010)	10 Mb	10 Mb	10 Mb	10 Mb
LAN	Yes	Yes	Yes	Yes
Telephone Lines	1	1	1	1
Fax Line	1	1	1	1
Cabling	No			
Wireless Access for Public	Yes	Yes	Yes	Yes

Network	Current	Projected		
	2010	2011	2012	2013
Router (Fiber Eth. VLAN upgrade on 7/1/2010 eliminates router use)	Cisco 2620			
Switch	3	3	3	3
Fax Machine	1			
Wireless Access Point	1	1	1	1

Hardware	Current	Projected		
	2010	2011	2012	2013
Servers	1	1	1	1
Public Access Workstations	26			
Staff Workstations	7			
Black & White Laser Printers	1			
Color Laser Printers	1	1	1	1
Scanners	1	1	1	1
UPS	1	1	1	1

Software	Current	Projected		
	2010	2011	2012	2013
Operating System (e.g. Windows 2000)	Windows XP	Windows 7	Windows 7	Windows 7
Productivity (e.g. Microsoft Office)	Office 2007	Office 2007	Office 2007	Office 2007
Educational (e.g. ResumeMaker)	Miscellaneous	Miscellaneous	Miscellaneous	Miscellaneous
Technical Center (e.g. Desktop publishing)	---			
e-Mail (e.g. Eudora, Outlook)	Outlook 2007	Outlook 2007	Outlook 2007	Outlook 2007

RFID	Current	Projected		
	2010	2011	2012	2013
RFID Antenna Pad				
RFID Self-Check Station				
RFID Gates Single				
RFID Gates Dual				
Library PDA

Buffalo & Erie County Public Library Technology Plan
Summary

Assessment of Telecommunications Services, Hardware, Software and other Services

Library Name **West Seneca**

Telecommunications	Current	Projected		
	2010	2011	2012	2013
WAN Circuit (Upgrade from 1 T-1 to 10Mb 7/1/2010)	10 Mb	10 Mb	10 Mb	10 Mb
LAN	Yes	Yes	Yes	Yes
Telephone Lines	1	1	1	1
Fax Line	1	1	1	1
Cabling	No			
Wireless Access for Public	Yes	Yes	Yes	Yes

Network	Current	Projected		
	2010	2011	2012	2013
Router (Fiber Eth. VLAN upgrade on 7/1/2010 eliminates router use)	Cisco 2620			
Switch	2	2	2	2
Fax Machine				
Wireless Access Point	1	1	1	1

Hardware	Current	Projected		
	2010	2011	2012	2013
Servers	1	1	1	1
Public Access Workstations	27			
Staff Workstations	7			
Black & White Laser Printers	1			
Color Laser Printers	1	1	1	1
Scanners	1	1	1	1
UPS	1	1	1	1

Software	Current	Projected		
	2010	2011	2012	2013
Operating System (e.g. Windows 2000)	Windows XP	Windows 7	Windows 7	Windows 7
Productivity (e.g. Microsoft Office)	Office 2007	Office 2007	Office 2007	Office 2007
Educational (e.g. ResumeMaker)	Miscellaneous	Miscellaneous	Miscellaneous	Miscellaneous
Technical Center (e.g. Desktop publishing)	---			
e-Mail (e.g. Eudora, Outlook)	Outlook 2007	Outlook 2007	Outlook 2007	Outlook 2007

RFID	Current	Projected		
	2010	2011	2012	2013
RFID Antenna Pad				
RFID Self-Check Station				
RFID Gates Single				
RFID Gates Dual				
Library PDA
